COMPARE ORIJEN® DIETS TO OTHER PET FOODS

NOURISHING INGREDIENTS HELP SUPPORT LIFELONG VITALITY

Your cat's nutritional needs evolve as they age, so it's important to ensure they're getting the right nourishment at every stage. While many cat foods provide extra supplementation to try to meet these needs, Guardian diets nourish cats based on their evolutionary diet, so less synthetic supplementation is needed. Learn more about how Guardian diets help protect your cat's health below.

NEUROLOGICAL

Taurine helps support their neurological health, including their brain and eyes.

HELP SUPPORT YOUR CAT'S HEALTH WITH INGREDIENT-BASED BENEFITS

Packed with ingredient-based nutrition from naturally occurring protein and nutrients, Guardian diets help support your cat's health for a lifetime, and the first 5 ingredients are always fresh or raw. Learn more about the ingredients in GUARDIAN 8™ and GUARDIAN 8™ SENIOR.

GUARDIAN 8™

WILD-CAUGHT WHOLE HERRING

Includes essential Omega 3 and 6 fatty acids that help support healthy skin & coat, joint health, and brain function.

FRESH OR RAW POULTRY

Provides rich protein and nutrients that help support heart health, muscle maintenance, brain function and eye health.

RAW FISH

Provides EPA and DHA to help support immunity and brain function, Taurine for heart health, and protein for muscle maintenance.

FRESH FRUIT & VEGETABLES

Includes antioxidant nutrients to help support immunity, and fiber to help support digestion.

GUARDIAN 8™

GUARDIAN 8™ is a specially formulated diet that addresses common health concerns like joint and digestive health for your adult cat with nutrient-rich fresh or raw animal ingredients.
