*Resident astrologer **Kate Chadwick** provides your planetary predictions with a particularly local twist*

Aries (3/21-4/19): We're all outside more this time of year, ram friends, but especially you this summer. Venus transiting your sign translates to cash. Maybe a second job serving at Limoncello will show you the fresh air and the money.

Taurus (4/20-5/20): We love you just the way you are, but your keyword this summer is "transformation." You decide what that means—as if anyone can order a bull around: a body transformation at Gage Strength Training, or a hairstyle one at La Difference.

Gemini (5/21-6/20) The summer starts with you, twin star, and there's nowhere to go but up. No matter what fun beckons, you're an eternal student, so set your intentions and learn something new. Check out the offerings at Chester County Night School.

Cancer (6/21-7/22) This summer's gonna shake things up for you, dear crab—not your favorite thing. But change can be positive, so steady as she goes. Practice mindfulness—a class at Symmetry Pilates may be just the ticket.

Leo (7/23-8/22) "Tumultuous" is your summer buzzword, Leo. That can mean exciting and fun or chaotic and turbulent. But for you, it's all about the look. Lady lions, get to Kaly, and gentlemen cats, refurbish the fits at Phineas Gage.

Virgo (8/23-9/22) Mercury arrives in your sign in August, dear Virgo, so start the summer by focusing on you, whatever that entails. Perhaps a bit of quiet time before others distract you. FYI: the West Chester Library is peaceful—and air conditioned..

Libra (9/23-10/22) You're notorious for avoiding conflict, lovely Libra, but a conversation you've been ducking for too long catches up in August. Whether family member or colleague, head to Brother's to discuss. It's hard to be angry while eating pizza.

Scorpio (10/23-11/22) It's summer, Scorpio—not exactly your "in your element" time of year—but lighten up. Get out of your own way and get the heck outside. Go to all the events, embrace all the activities, do all the things. Or as many as you tolerate.

Sagittarius (11/23-12/21) You'll be thinking BIG this summer, archer friends: full moon in June signals the end of a cycle, Jupiter retrograde in July brings allll the clarity. Shoot your shot—a new house, maybe? Connect with Moore and Maguire.

Capricorn (12/22-1/19) Saturn retrograde in early June sets your summer tone, steadfast goats: chill. Let go and have fun. Your self-imposed rules aren't going anywhere. Get outside and be with people (colleagues don't count)—there are plenty of events.

Aquarius (1/20-2/18) Everything goes smoothly in early summer, and then boom: Why is everyone around you suddenly so emo?? Emotions aren't your thing, so think before you speak, and stick to activities where talking is minimal. Destination: Uptown!

Pisces (2/19-3/20) Mars starts the summer in your sign, fish friends, and with it, a major confidence boost. Explore your inner artist (or expand the outer one) by hitting Painted Plate with some pals. A love connection may await you.
