Market **Forecast**

Resident astrologer ***Kate Chadwick*** *provides your planetary predictions with a particularly local twist*

Aries (3/21-4/19): Single or paired, October brings romantic issues. Tethered rams will see conflicts over cash, single ones will have decisions to make—should you stay or should you go? Snag a new rake at Market Street Hardware, get out in the yard, and think.

Taurus (4/20-5/20): You're not a fan of change, steadfast bull, but under these aspects, the universe is suggesting a career rethink. Don't panic! Get your computer in for a checkup at Computer Doctors, then explore your options from the comfort of home.

Gemini (5/21-6/20) It can't all be unicorns and rainbows, twin stars—October looks bumpy all over. Everything gets under your skin: career, love partners, and family. Prospects look good for learning, though! You love that! Peep some courses at WCU.

Cancer (6/21-7/22) October looks chock full of blessings for you, crab friends, which is lovely because you deserve a break. Why not put your focus on yourself instead of others for a change of pace, and treat yourself to a spa day at La Difference?

Leo (7/23-8/22) When's the last time you had a checkup, majestic ones? Both your physical and financial health need attention. Putting your social life first will catch up with you if you're not careful. Start with a wellness session at Goshen Family Chiropractic.

Virgo (8/23-9/22) Lots of positive aspects now, steady Virgo: you look good, you feel good, work is good...oh wait, what's this? Make sure that special someone who caught your eye during happy hour at Social is as available as they say they are.

Libra (9/23-10/22) The focus is on family for you right now, lovely Libra, which is good because both career and finances are a little bit shaky. Hunker down with your peeps and skip dining out for a bit. One jaunt to Carlino's should cover dinners for days.

Scorpio (10/23-11/22) Follow your heart this month, Scorpions, and shift your focus away from family discord and collegial conundrums. No sudden movements. Pick up a soft fall throw blanket from Giunta's and snuggle with your favorite person or pet.

Sagittarius (11/23-12/21) The universe is asking if you want to be right, or happy, dear archer. Practice compromise. You want Nick's Roast Beef; your favorite vegan wants Love Again Local. Alternate. Or skip lunch and do Dia Doce for dessert. Everybody's happy.

Capricorn (12/22-1/19) You're so work-oriented, goat friends, that you can be a taskmaster where kids in your life are concerned. They're still adjusting to school, so cut them some slack and plan a trip to the Helicopter Museum. Education + fun = win/win.

Aquarius (1/20-2/18) Um. Family conflicts. Professional roadblocks. Bleak finances. You're kind of catching it from all sides, dear Aquarian. While your instincts may be to go find something (or someone) to punch, perhaps a trip to Prana House is the solution.

Pisces (2/19-3/20) You've got lots of energy under this aspect but not a lot of cash, fish friends, and the holidays are right around the corner. A workshop at Pine + Quill will be just the ticket. Presto: homemade gifts for your peeps, from both your heart and hands.
