Market **Forecast**

Resident astrologer ***Kate Chadwick*** *provides your planetary predictions with a particularly local twist*

Aries (3/21-4/19): It's all good in the hood, ram friends—mostly. Smooth sailing with relationships, job, family. Keep an eye on your health. Your propensity for running here, there, and everywhere adds up. At least get to Bryn Mawr Running for some proper kicks.

Taurus (4/20-5/20): You work because you must, bulls; we all know you'd prefer lying around your abode. But with year-end reviews and promotions afoot, keep your eyes on the prize. Then you can treat yourself at Pine + Quill to that special something for your lair.

Gemini (5/21-6/20) Your life will be surprisingly calm this December, twin stars, but issues loom. One might be boredom—a fatal condition. If you've got a side hustle, up your game. Book a skin refresh at Unity Skin Studio, and you'll be ready for anything.

Cancer (6/21-7/22) You're such sensitive souls, dear crabs, and as much as you love family and friends, the bustle of the holiday season takes a toll on your delicate constitution, mentally and physically. Book a massage at Avante.

Leo (7/23-8/22) The teeth emoji: that's your December forecast, kitty-cats. Your constant socializing is straining your one-on-one relationships. Make some à deux reservations so important people don't feel like part of an entourage. Spence Café works.

Virgo (8/23-9/22) The stars are asking you to widen your social circle, maidens. You run a tight ship, life-wise, so putting yourself out there doesn't always come naturally. But that Christmas party your cousin's friend is having at Bierhaul? Go.

Libra (9/23-10/22) Things are going well for you from both career and financial standpoints, lovelies. There may even be a fat year-end bonus in your near future. Why not call Whirlaway and book a trip with it? Sometimes experiences > possessions.

Scorpio (10/23-11/22) Scorpio season is over—or is it? You're rolling right along like the badass you are. Even recent career hiccups should straighten out. Is it… time to buy a house? Contact the Moore Maguire Team and find out.

Sagittarius (11/23-12/21) You have such fun energy, archers—always the life of the party. This month, however, there's family friction and you may be the…peacekeeper. Show up with a tray from America's Pie or Yori's Bakery. Mission accomplished.

Capricorn (12/22-1/19) You're the hardest worker, goats, and therefore able to be generous gift-givers. Keep in mind that some of your loved ones are 5 Senses people, and some would appreciate a tune-up at DARE Automotive. Don't mix them up.

Aquarius (1/20-2/18) See and be seen is what the stars say in December, water bearers. Did you know Pietro's has one of the best happy hours in town? A little bite, a little beverage, and a chic but not overwhelming scene. Tis the season.

Pisces (2/19-3/20) You shine at the holidays, sweet fishes, but "don't overdo it" is your mantra. Your peeps love your homemade…everything. But hosting them with a cheese tray and cookies from Carlino's won't kill you. Promise.
