*Resident astrologer **Kate Chadwick** provides your planetary predictions with a particularly local twist*

Aries (3/21-4/19): There are some things heading your way that are out of your control, ram friends. So, focus on you. Check out the skincare services at Renew Laser & Medical Center so you're refreshed and ready for anything.

Taurus (4/20-5/20): You need a nap, bullish one. You are the king/queen of your domain and knock yourself out providing for others. Yes, you can buy yourself flowers, but let someone else hit Kati Mac to beautify your space for a change.

Gemini (5/21-6/20) Romance is on the agenda, twin stars. Whether you're in a relationship or looking for love, you are the flame. Hold someone's hand over a plate of pasta at Limoncello. And if you are dining alone, you won't be for long.

Cancer (6/21-7/22) Relationships are hitting snags, crab friends. If it's time for serious conversations, have them in public. It forces everyone to behave. Visit Mimi's Tea Cottage. It's hard to be angry over tea and tiny sandwiches.

Leo (7/23-8/22) Money will come your way easily this month, feline friends, but also...watch your spending! Try giving up just one of your many indulgences (or vices)—you'll be shocked at how much money you save.

Virgo (8/23-9/22) You've got an economic bump heading your way, and you deserve it. Whether a raise or a whole new career, your hard work is about to pay off. Looking to invest? Call Moore Maguire for all things real estate.

Libra (9/23-10/22) You've been ignoring something that's right in front of you, lovelies. While you figure out how to deal with it, the universe suggests you visit Pomp and beautify your surroundings. That always balances your scales.

Scorpio (10/23-11/22) It's all good in the hood with you this month, scorpions—love, career, and family. Take advantage of the good vibes and feather that nest. A visit to Pine + Quill never fails to inspire.

Sagittarius (11/23-12/21) Life is on the upswing right now, archer friends, but there's one big issue you need to deal with. The universe is suggesting that whatever it is, just rip that band aid off. Then treat yourself to a massage at La Difference.

Capricorn (12/22-1/19) Slow your roll, goats. You are the workhorse of the zodiac, but everybody needs a break now and then and a Capricorn on a roll is like a bull in a china shop. Bring a little ohm into your life with a yoga sesh right on Gay Street.

Aquarius (1/20-2/18) You've always marched to the beat of your own drum, water-bearers. That might feel tough now, as everyone else is headed in their own direction. Get a day pass to alignSpace and indulge your inner entrepreneur.

Pisces (2/19-3/20) Your head is often in the clouds, Pisceans, and that's just part of your charm. But the change in season is asking you to focus on the practical. Start by doing something as earth-bound as a tune-up at Lewis Automotive.
