

Knot Not! Detailed In Depth Report

Knot Not! Tells the story of Mohan Srinivas who moves to Canada to pursue his MBA and wishes to settle down permanently, and wants to escape from the clutches of his tyrant father. The core idea of Knot Not! Revolves around domestic violence and household cruelty, there are also a few scenes about how Mohan, the main character when faced with a bullying situation, gives in to the situation instead of trying to defend himself because he is used to his father being a tyrant to him all the time.

Mohan's parent's come to Canada to fix his marriage alliance with Lakshmi, the daughter of Srinivas's childhood friend Baskar. Baskar is pleased to accept the alliance but a bit concerned after seeing Srinivas's character and attitude towards his wife Padma. Baskar's invite Srinivas and family for lunch to get to know them a bit more during which things go downhill, and Srinivas ends up fixing his mind in searching for another bride. Here we are able to see Srinivas's character judgemental behaviour, and weak decision making qualities.

At that time, Marmakar, the caretaker of the house in which Mohan's parents stay spills the tea about Mohan seeing Patricia and that they both had been in the house earlier before the parents arrived. Srinivas gets furious and agitated and wants to arrange Mohan's marriage as soon as possible to stop things from getting out of his control. Mohan comes to know about what had happened and tries to cover up by saying he is just friends with Patricia, but Srinivas doesn't fall for his bluff. A frustrated Mohan goes off at Srinivas, and agrees to meet Lakshmi the following week. Here again we see Srinivas making wrong decisions at the wrong time.

On the day of meeting Lakshmi, Mohan takes Patricia with him as he had come in her car, he tells her he is on a date but Patricia misunderstands it as if he has bought her out for a date before she sees Lakshmi enter the scene, here we can see Patricia feel heartbroken and betrayed as she bluffs to Mohan that she has a date of her own to attend as she tries to hide her tears and exits the scene. Soon afterwards, Mohan calls Patricia as he forgot his bag in her car, and as she says goodbye to him and gives his bag, Mohan tells her that they won't be seeing each other after the final two exams for which Patricia hints at him saying they are "done".

On the day of the engagement, Srinivas and Padma come to know from Baskar and Lata about Mohan's real deal. Mohan asked Lakshmi to help him stall Srinivas and Padma till he leave Canada as he is interested in someone else and he needs to fix things and make the relationship right. Here, Mohan doesn't reveal the name of the person which comes as a surprise for what happens next.

Srinivas gets furious on hearing about this and goes off on Mohan and threatens him and starts insulting Patricia. Patricia leaves the scene humiliated yet again. Mohan, frustrated at his father's actions brings forth Venki (his classmate who is gay) and declares he will be marrying him. Here we can see that Mohan only did this after not being able to handle anymore of his father and to humiliate him.

Mohan's mother Padma comes out of her shell and stands against Srinivas and calls him out for all that he did to her and Mohan, she blames Srinivas for Mohan's sorrow and sadness and for him being a gloomy kid. We come to know at this point that it was Padma's plan to send Mohan to Canada by telling Srinivas the opposite, thinking he would do reverse of what is being said.

Padma approaches Patricia and asks her to be Mohan's bride but Patricia humbly refuses at first, Padma realizes that she wants Mohan to ask her instead of her, Mohan proposes Patricia and she accepts, Srinivas turns a new leaf at this point.

Knot Not! Is an emotionally driven family centric movie with a strong social message for the audience at the end.
