5 Reasons Why Professional Employer Organizations Benefit Small Businesses

 The Old Way

- You have limited access to employee benefits and insurance plans, which makes it harder to compete with larger companies to attract and retain A-player talent.
- Managing HR responsibilities in-house consumes valuable time and resources, slowing down the growth of your business.
- You face compliance risks due to evolving employment laws and regulations.
- Payroll processing, tax filing and other administrative tasks become a costly, time-consuming burden.
- It's a struggle to motivate your team, scale up sustainably and keep your business going year on year.

 The New Way

- You can offer comprehensive benefits and insurance plans at discounted rates, resulting in happier employees with lower turnover. Small businesses that use PEOs for at least 4 quarters experience turnover rates 10-14% lower than average.
- When you outsource HR and focus on your core functions, you'll experience accelerated business growth. Employment at small businesses that use PEOs grows 7-9% faster than average.
- Our legal compliance experts make sure you're always covered and up-to-date, offering exceptional, proactive support.
- Your dedicated payroll administrator will take payroll and tax admin off your desk, so you can focus on rapidly scaling your business.
- You'll enjoy unparalleled stability and longevity as you scale. Privately held businesses that use PEOs are 50% less likely to fail when compared to similar companies.

Turning our admin, payroll, benefits, 401K, workers' compensation, etc., over to Axcet HR has been one of the best decisions that we’ve ever made: that was back in 2001! We’ve had 21 great years with Axcet and hope to have 21 more! Axcet has saved us time and LOTS of money but most of all, Axcet HR has allowed us to focus on running our business...because we know, day in, and day out that Axcet has our back!
