Innovative Entertainment That Inspires

Customizable LED Displays

Endless configuration possibilities for perfect backdrops.

Engaging Visuals

Transform weekly sermons or series with captivating displays.

Seamless Transitions

Easily switch from traditional to contemporary services.

Break Through the Noise

Capturing your congregation's attention is crucial for an impactful worship experience. HD Distributing's Direct View LED displays are designed to attract attention, enhance interaction, and reinforce your message with clear, detailed imagery.

Flexible Solutions
Various resolutions and configurations keep your sermons engaging and fresh.

Energy Efficiency
LED technology is brighter and uses half the power of traditional displays, saving energy and costs.

Feed Your Mind, Entertain Your Soul

In modern worship environments, visual technology has become one of the most effective ways to engage congregations. Direct View LED displays are great worship production tools for communicating messages, news, and more.

Adaptable Displays
Easily rearrange and program visuals to keep stage design fresh and engaging.

Flexible Configurations
Position displays to create large, seamless screens or add depth and dimension.

Energy-Efficient
LED displays are brighter and use half the power of other products, reducing utility expenses.

High-Quality Visuals
HD Distributing's XS-CRYSTAL Series offers high brightness, contrast, and ultra-high definition to captivate your congregation week after week.
