

DICTADOR

2 MASTERS

CONCEPT

If the master is exceptional, he creates a timeless and remarkable masterpiece. But, what if one masterpiece is created by two geniuses, two masters, two artists, each an expert in his own right?

2 Masters in their own domain

For over 40 years, Dictador has been meticulously perfecting the art of rum making according to family recipes and techniques. It is now time that this superior aged rum finds its way to the workshops of some of the most outstanding artists of the spirit world – artists who expertly craft distinct categories of alcohol in the most exquisite ways imaginable.

Each of these artists has been meticulously selected to represent his own category of alcohol, based on craftsmanship that is unmatched, exceptional and beyond compare. Each invited artist is to receive in their domain specially selected barrels of Dictador rum and to continue the unique maturing process.
