

WATER

Whether it's problems with burst water mains, flooding or maintenance of an old system, working with water can be a challenge, so it's essential that you are well equipped for the job. Of course, you'll have all the weather-proof clothing and footwear to protect you, but you'll also want a vehicle that's kitted out too.

140 STRONG

AT OBP UTILITIES, WE CAN HELP FIT OUT YOUR UTILITY VEHICLE BOTH INSIDE AND OUTSIDE AND PROVIDE THE POWER YOU NEED TO GET THE JOB DONE.

ONBOARD POWER

With our versatile driveline compressor unit, OBP Utilities can provide you with onboard power whatever your location. The compressor is rear-fitted and works by deliver power through the vehicle's prop shaft. That allows you to power electric generators or other equipment and tools.

It can be used to provide power to water pumps and suction equipment, as well as onsite lighting and electric breaks.

PANELLING AND STORAGE

Whether it's large plastic or copper piping or tiny screws and washers, you'll want to be able to put your hand on whatever you need at any given time in your van.

We want to make sure the vehicle's interior is properly lined and we offer a panelling service which allows you to choose the material that best fits your line of work. You can choose between plywood, fluted plastic or aluminum. We can fit panelling to fit any measurements, no matter what the make and model of your vehicle.

Among the other interior solutions we offer are:

- ✓ Partitioning systems
- ✓ Installation of work benches
- ✓ Electrics and lighting systems

With our bespoke racking service, we can provide the storage solutions that are right for you, kitting out your van so that everything you need is within easy reach.

EXTERIOR SOLUTION FOR WATER UTILITY VANS

While we can kit you out with the equipment to do a good job, you want to look good doing it. That's why we offer a high-quality livery service, which is not only stylish but practical. We offer computer-cut vinyl or full colour wrap liveries as well as reflective tape and panelling. We can also fit warning beacons and sirens.

OBP Utilities also want you to stay safe too, so we provide an alarm fitting service. We can install insurance-approved units as well as dead locks and lock protection systems.

WITH YOU EVERY STEP OF THE WAY

We understand that kitting out your fleet can be a big undertaking. That's why we will take you through every step of the process and advise you along the way. We can help you design the interior and exterior solutions which suit you best and select the compressor unit which best suits your needs.

With our comprehensive after-sales and maintenance service, you can always be assured that we're with you every step of the way, even after we have kitted you out.
