ABOUT US

SOLUTIONS TO HELP YOU DELIVER UNBEATABLE SERVICE.

We cover all aspects of fitting out your mobile servicing fleet, from panelling and storage to the installation of our OBP onboard power units. As specialised suppliers to the utilities industry, we can fit out dedicated service vehicles for a number of sectors including:

THE PROCESS

- ✓ 25 YEARS IN THE SECTOR
- ✓ 140,000 SQ/FT FACTORY
- ✓ 1000 VANS FITTED EACH YEAR

AFTER SALES AND MAINTENANCE

WE WORK WITH A DEDICATED TEAM OF **135 FABRICATORS, AUTO-ELECTRICIANS, MECHANICS AND INSTALLERS** TO BRING YOU THE BEST SERVICE POSSIBLE FOR **FITTING OUT YOUR FLEET** AND PROVIDING ON BOARD POWER SOLUTIONS.

AFTER SALES AND MAINTENANCE

WE STAND OVER EVERY INSTALLATION AND FITTING AND PROVIDE AN AFTER- SALES SUPPORT AND MAINTENANCE SERVICE.

We want your fleet to be fully-functional and able to provide a top-class service to your customers. That's why we operate our own maintenance and call-out service to make sure your OBP unit is working smoothly and that any problems are quickly sorted.

OUR SERVICES

GAS

Emergencies can happen anytime, from suspected leaks to broken boilers. Leaving customers cold is not ideal, so you need to be able to jump in your van at any time and be ready for the challenge ahead.

ELECTRICITY

Be it a call out to damaged cables or transformer units, you need to have all the right tools. Bring the power and get everything up and running with our compressor units and unique vans.

SEWAGE

In a highly-specialised sector like sewage, it is vital that your vehicles are kitted out with the correct equipment to avoid hazards. We ensure high-standard industry-lead technology to power and store that equipment safely.

WATER

Working with water can be a challenge. Of course, you'll have all the weather-proof clothing and footwear to protect you on the job, but you'll also want a vehicle that's kitted out and protected too.

CONSTRUCTION

A choice of vehicle is about more than just getting your team from A to B. A well-kitted construction van alleviates worrying about how you are going to power your tools or find the right screw, nail, washer.
