Why choose Ottimate?

99% faster invoice processing

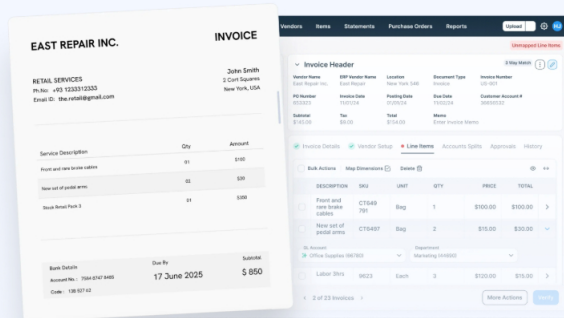

Invoices, approvals, payments, and spend controls all sync directly with your ERP. The result is faster invoice cycles and fewer delays.

450 hours back a year

Ottimate captures and codes invoices automatically, so your team can stop chasing approvals and struggling through manual work.

Lower cost per invoice by 80%

As you connect every step of accounts payable in one automated platform, you cut costs on disconnected tools, paperwork, and labor.

When invoices get more complex, the differences matter

The Old Way

- × Limited payment options
- × Only has basic workflow automation
- × Struggles with complex invoice formats
- × GL mapping and coding is manual
- × Older, clunky user interface

- ✓ Built for high volume and multi-location operations
- ✓ Advanced AI that adapts to client workflows
- ✓ Detailed mapping captures header and line items
- ✓ Automatic GL coding with minimal training
- ✓ Purpose-built solutions for specific industries

Ready to automate your accounts payable?

- ✓ Code invoices accurately
- ✓ Customize approval workflows
- ✓ Purpose-built industry solutions
- ✓ Adapt to each client's workflows

FAQs

What is Invoice Automation?

Invoice Automation is a technology that streamlines the invoicing process by eliminating manual tasks, such as data entry and invoice matching, significantly reducing the risk of errors and speeding up the process.

At Ottimate, we go beyond mere automation. We employ machine learning algorithms to extract and categorize data from invoices, regardless of their format, and then automatically match them to their corresponding purchase orders and delivery receipts. Our platform serves as a one-stop-shop for your invoice management needs, streamlining everything from receipt to payment, all while integrating seamlessly with your existing accounting systems. In essence, we make your invoices intelligent, turning them into actionable financial insights.
