COLLECTION

ABOUT THIS COLLECTION

This exclusive collection is based on original paintings by artist Jennifer Lanne, created in a beautiful barn studio on her farm in upstate New York. Now, we bring her trademark techniques to your dining table, walls, bedroom and living room in the form of platters, table runners, canvas and velvet pillows. Her original hand-painted motifs of flora and fauna feature vibrant colors, layered and textured compositions, as well as distressing and aging reminiscent of authentic antiques. Here they are recreated, exclusively for Arhaus.
