**Belgian Pearl Sugar**

Craving dessert? Look no further. Belgian Pearl Sugar transforms into caramelized syrup when it's heated at a high temperature in a hot iron, like when we make our scrumptious Belgian Liège waffles.

**Liège Waffle Dough**

Want to make Liège waffles at home? Yes, it's possible with our handmade Belgian Liège waffle dough. Remember to give the dough time to rise again after it's defrosted. This is key to success (and legendary deliciousness)!

**Halal Salt Beef & Pastrami**

Love Aberdeen Angus Salt beef and Pastrami Brisket? If so, look no further. Both meats are HMC-approved when you get them from us. They're brined with a special mix of sweet and hot herbs and spices, and they come frozen and vacuum-packed so they can stay fresh for months.

We take pride in our products. That's why we decided to share our dough, pearl sugar, beef brisket, and pastrami with those of you who want to incorporate them in your own recipes at home or use them in your food service business.

**Artisan Belgian Liège Waffle Dough**

Waffle and Scoop's Liège Waffle dough includes pearl sugar that will caramelize as you cook it, creating tiny pockets of syrup. We always give our dough time to slow-rise before freezing. These waffles are truly "moreish," so make sure to stock up now.
