WE'VE GOT AN ANSWER FOR EVERYTHING.

EETM300CXX Vantage® Power Graphing Meter

The Snap-on® Vantage® Power Graphing Meter provides you with the most comprehensive and reliable automotive systems testing anywhere. It can test any automotive system and solve virtually any driveability problem quickly and easily. The newest model features expanded coverage of domestic and Asian/European vehicles through 1999, and new coverage of Audi and Isuzu.

Vantage® PC Link Kit - EETM302A

With the Vantage® PC Link Kit, you can save and print Vantage® screens and other data from your PC. Its powerful database capabilities allow you to enter vehicle, component and test condition data and save the information for later analysis. Works with XT, 286, 386, 486 or Pentium® IBM or compatible computers.

kV Ignition Module - EETM306AXX

This kV ignition tester allows you to catch intermittent ignition misfires and analyze ignition data more precisely. It attaches quickly and easily to the Vantage® Meter, is simple to use, fast and it fits into the palm of your hand. It gives you the ability to quickly look at the individual waveform characteristics, including Power kV, Spark kV and Burntime, effectively and efficiently. It also works on Standard Ignition Systems, HEI & DIS and Coil-On-Plug Systems.
