

TRAVEL BEYOND FIRST CLASS

Experience the luxury of time well spent with **TCS World Travel**.

ANY intrepid traveler will tell you that time is the ultimate asset—time to explore, time to discover, time to be present and take it all in. For more than 30 years, TCS World Travel has been redefining what it means to experience the globe by pioneering private jet expeditions that transform travel into timeless memories.

As the world's most experienced and awarded private jet expedition company, TCS World Travel curates all-inclusive group experiences, journeying to iconic destinations aboard the best-in-class Airbus A321. The customized jet offers unrivaled comfort, with 52 Italian leather flatbed seats in one of the most spacious single-aisle cabins available.

FEWER DAYS IN TRANSIT. TCS World Travel's signature Around the World private jet journey explores 10 iconic destinations over 24 nights. To experience the same itinerary via commercial airlines requires an additional 10 days, accounting for transit time, overnight stops, and layovers.

FEWER FLIGHTS. Traveling aboard the private jet means flying directly between most destinations. When a smaller aircraft is needed—such as for reaching the Maasai Mara National Reserve—a private charter flight awaits your arrival. In contrast, commercial travel often requires multiple connections and fragmented itineraries.

MORE TIME IN THE MOMENT. Soaring directly between destinations also means less time in the sky and more time on the ground to, say, wander through the storied corridors of Angkor Wat, where history is etched in every stone. Or feel the ground tremble beneath you as millions of hooves cross the Serengeti during a game drive in the African bush.

LESS WAITING. With TCS World Travel, every transition is effortless. The average time between transfers is just one hour, and you'll receive visa application assistance, expedited airport security, baggage handling, and private hotel transfers. Spend less time at airports and more time where it counts—exploring, connecting, and immersing yourself in the world unseen. — **AMY ROBERTS**
