

LUNA LANDING

Meet Norwegian Cruise Line's luxurious new ship.

WHEN *Norwegian Luna* makes its grand debut in March, it will showcase what Norwegian Cruise Line does best: attentive service, elevated amenities, and epic itineraries. Onboard the 1,056-foot-long vessel, travelers can expect a decadent staff-to-guest ratio of nearly one crew member for every two travelers. And like her twin sister ship *Norwegian Aqua*, *Norwegian Luna* expands the line's commitment to expansive outdoor spaces, refined contemporary design, and experiences that exceed expectations.

DISTINCT DINING

Norwegian Luna features more than 30 dining venues, lounges, and bars, spanning casual spots like the self-service Indulge Food Hall to more upscale settings like Commodore Room. Its specialty restaurants offer even more luxurious options: Onda by Scarpetta, for one, serves handmade pastas in a warmly modern space, while at Nama Sushi & Sashimi, imaginative rolls are crafted right at the table. From barbecue to vegan dishes, decadent desserts to health-forward options, and small bites to expansive buffets, *Norwegian Luna's* culinary landscape is as diverse as it is thoughtfully executed.

EPIC ENTERTAINMENT

Life onboard is at once lively and luxurious. Stretch out under the sun at Infinity Beach, stroll along the famous Ocean Boulevard—an outdoor walkway that wraps around the entire ship—and challenge the family to a spirited pickleball match. To really lighten things up, head to the Glow Court, where a high-tech LED floor transforms games into immersive spectacles. Kids and kids at heart will gravitate to the new Aqua Game Zone, a mix of retro arcade games, duck pin bowling, and VR adventures. Thrill chasers can take on The Drop, a 10-story, free-fall slide, or buckle into the two-person Aqua Slidecoaster—the world's first hybrid rollercoaster-waterslide that's the longest and fastest ride of its kind at sea. As night falls, the spotlight shifts to *Norwegian Luna's* standout entertainment. High-energy concert tributes include celebrations of the music of both Elton John and The Eagles, while *HIKO* is a mixed-reality sci-fi show that blends gravity-defying acts with 3D visuals.

THE HAVEN

A gleaming metallic keycard unlocks a world of luxury in The Haven. Here, guests experience *Norwegian Luna's* most elite venues, enhanced comforts, and bespoke amenities. From the moment you arrive, a personal butler greets you, unpacks your luggage, and ensures every detail is effortless, while your dedicated concierge arranges dining, entertainment, spa experiences, and shore excursions. The privileges extend beyond service: private pools, restaurants, clubs, sundecks, and cocktail parties are reserved solely for guests of The Haven. The accommodations are among the most expansive at sea, from two-story Duplex Suites to the 2,100 square-foot Premier Owner's Suite, featuring three ensuite bedrooms, separate living and dining areas, and a sweeping aft-facing balcony complete with a hot tub. — AMY ROBERTS
