6 Ways to Get Ready for Teardrop Trailer Spring Camping

Just like that, spring is here and, woo-hoo! Well, almost. The snow may still be falling in some places but worry not. Now is the time to unearth your teardrop camper from winter storage and get ready for longer, warmer days and the wide-open highway. There's lots to do, so don't delay. Here's how to get your teardrop overland camper ready, and your mind stoked for the 2022 camping season.

De-winterize Your Colorado Teardrop Overland Camper

Remember everything you did to prepare your camper trailer or RV for winter? Now is the time to undo it, install charged batteries, flush water systems, fill propane tanks, make sure appliances are working, etc. Preparing your teardrop overland camper for the season is a great way to get inspired for the upcoming season. Click here to see our spring de-winterization checklist.

Schedule Maintenance

If any damage has occurred over the winter, now is the time to fix it. Even if your teardrop trailer came through the winter unscathed, it's never wrong to schedule some annual maintenance, such as rotating the tires and replacing dead batteries Schedule some yearly maintenance for a hassle-free teardrop trailer camping season.

Remember that Colorado Teardrops recommends repacking the wheel bearings every 3,000 miles. Please reach out to our Service Team to schedule this or any other specific needs.

Give it a Spring Clean

Even if your teardrop is spotless from the winter, give it a deep clean anyway. This will reveal any hidden damage that may have occurred and eliminate germs from rodents or other critters that may have managed to pass through during the cold season. A good clean, as well as fresh sheets and blankets, and maybe a new spin on interior decor, will provide endless inspiration for hitting the road and hanging out in your home on wheels.

Refresh and Restock

Bring back in any gear removed for the season. Restock dry goods, cleaning supplies, dishes, towels, sheets, blankets – anything you took out of your teardrop camper for the winter needs to go back in.

Make Sure Paperwork is Up to Date

Gather up your paperwork and make sure your registration and insurance are up to date. Place new tags on your teardrop camper and put paperwork in an easy-access place, should you need it.

Unearth and print out your camping checklist and check it twice.

Make Your Reservations for the Season

Since the pandemic, camping has become more popular than ever, causing campgrounds to fill faster than ever. Do your research and some planning and make your reservations to make sure you can get your Colorado Teardrop in at your favorite campgrounds.

The more you plan for your camping season now, the less stressed you'll be when it's time to hit the road and the more prepared you'll be to have great outdoor adventures for the rest of the year. So, get the keys, air out your camper and get ready to leave your worries behind.
