CONTRACT LOGIX - NEWS

Welcome to a monthly briefing where we roll out updates on all things CLX!

Summer is in full swing and you know what that means...new product updates and a refreshed UI, all designed to make your experience easier and faster.

Here's what landed this month to help you keep curing contract chaos.

See exactly where contracts are getting stuck with Days-in-Stage

Days-in-Stage tracking shows you how long a contract has been sitting in each workflow stage. Filter by stage, contract type, or owner to spot the bottleneck fast.

Three weeks in legal review and nobody said anything? Now you'll know before it becomes a fire drill.

Child contracts are now just one click away in the new UI

The new Child Contracts drawer in the new user interface lets you view and navigate to related contracts right from the parent record.

Less hunting. Everything that belongs together is actually together now.

Smarter data extraction editing

When AIDE pulls data from your contracts, you can now edit it using dropdowns, multi-selects, and date pickers instead of typing freeform. Cleaner input, fewer errors.

The system is doing more of the work so you don't have to.

A few bugs bit the dust

Column order now sticks after a page refresh. Manual workflows trigger the way they're supposed to. Text fields no longer cut off what you're typing.

We heard you on these — now they're fixed!

SPOTLIGHT

The new Contract Logix interface is rolling out now

We redesigned the whole interface and it's coming to all customers in June and July. Cleaner grids, fewer clicks, inline editing throughout.

Faster to navigate and easier on the eyes.

The new UI is role-based, so your tenant owner or system admin will need to enable it for your specific role. Once they do, head to **User Preferences** on the homepage and choose Light or Dark mode.

GET FEATURED

Want to be featured? There's a gift card in it for you.

We're launching a customer spotlight series and we want to hear how you're using Contract Logix.

The first participants get a $150 Amazon gift card!

UPCOMING WEBINAR

We're hosting a webinar on the new UI in late July - details coming soon. Questions before then? Email us at **get.support@legalsifter.com**.

FROM THE TEAM

What happens when you send a legal tech company to a marketing conference and ask people about contracts?

Our Account Executive Hayley went off to Social Media Marketing World to find out how marketers are dealing with contracts.

Watch what she uncovered.

Spoiler: a lot of people are using ChatGPT for contract review. There's a better way...with ReviewPro.
