About

Who am I?

Abby Anderson

Welcome to my portfolio and resource hub!

This site highlights my professional work, explains the IEP process, and outlines how I support students, families, and educators in understanding special education services.

I believe every student deserves an educational plan that reflects their strengths, needs, and long term goals. My work focuses on helping others understand the IEP process and learn how to advocate for the support that helps students succeed.

Services

How I Support the IEP Journey

Interpretation Services

Medical and Educational
Clear, accurate ASL interpretation for hospitals, clinics, classrooms, and IEP meetings. I help ensure information is understood on both sides with professionalism and respect.

Legal and Advocacy
Interpretation for legal settings, agency appointments, and conversations with healthcare providers, businesses, or law enforcement.

Religious and Community Events
Support for church services, holiday programs, and community gatherings.

Translation Work

ASL Video Translation
Storytelling, children's literature, and educational videos translated into accessible ASL.

ASL to English
Detailed, accurate translations of ASL videos or live content into written or spoken English while preserving meaning and tone.

ADA and Accessibility Resources
Translations that help organizations meet accessibility needs and support Deaf community inclusion.

Advocacy & Resources

Accessibility Guidance
Support for organizations learning how to meet ADA standards and provide meaningful communication access.

Customized Advocacy Letters
Letters for schools, healthcare providers, law enforcement, and businesses to support Deaf clients and promote accessibility.

Learning & Community Resources
Recommendations for learning ASL, understanding Deaf culture, and building stronger communication partnerships.

ASL

Want to learn ASL?

Learn with Bill Vicars

Bill Vicars, a deaf educator and professor emeritus at California State University is the founder of [Lifeprint.com](#) !

This website allows those interested in learning more about the beautiful and complex world of American Sign Language to explore a few resources focused on assisting the deaf community.

Some of website's features include interpreting videos, ASL lessons, an ASL dictionary and even a dedicated resource section for those interested in taking their learning to the next level!

All of these features are completely free!
