## PROJECT UPDATE

### Upcoming Work

Metro Vancouver is replacing the Central Park Water Main to ensure the continued delivery of high-quality drinking water well into the future. This new water main will meet growing demand for drinking water in the region, and is also designed to withstand major earthquakes. Central Park Water Main – Imperial Section Phase 1 extends along Imperial Street between MacPherson Avenue and Griffiths Avenue. Construction for this phase began in January 2025 and is expected to continue for two years.

Beginning on May 8, crews will be working on Imperial Street, between Kingsway and Randolph Avenue. Work will continue east towards Empress Avenue over the next several months. See map below.
