FALL FIESTA AGASTACHE
Introduced by David Salman

IMPROVING THE EARTH * HCG * ONE GARDEN AT A TIME

A Thriving Garden Starts Below The Surface

EXCLUSIVE
NATIVE

A house that weathers the test of time is built on a strong foundation. Healthy soil is the foundation that new transplants and established plants need for long-term success in the garden. All too often, I see customers load up with lots of plants, but very few soil-building products. What is often forgotten is that soil is a living underground ecosystem supporting the plants growing in it. So to feed your plants, you must feed the soil.

As gardeners, we dream of gardens generously filled with colorful flowers and foliage, buzzing and humming with life. After a long hot growing season, soil organisms are hungry. Feeding the soil in fall will ensure that ample nutrients are available next spring when plants need them most. I always recommend using organic and natural fertilizers and soil amendments to encourage vigorous growth and protect your local ecosystem. Get your hands dirty this fall and enjoy the results!

David Salman *Founder & Chief Horticulturist*

Fall Fiesta Agastache
(Agastache 'Fall Fiesta')

A native hybrid with stunning huge pink flower spikes that appear weeks later than other Agastache. Extend your garden's bloom season into fall and provide an excellent late-season nectar source for hummingbirds. An outstanding introduction from David Salman, High Country Gardens Chief Horticulturist.
#HC017498 Available in Trays

48-54" tall x 18-24" wide | Zones 5-9 | 5" Deep Pot
Sandy Soil, Average Soil, Drought/Dry Soil, Well-Drained Soil
Plant w/Ornamental Grass, Perennial Sunflower, Russian Sage

On the Cover: *Autumn afternoon sun accentuates the flowers and grasses in this Lakewood, Colorado xeric garden. See pages 10-11 for details.*

For tips on building healthy soil in your garden this fall, see page 12.

FALL FINALE IN A COLORADO GARDEN

SEASONAL PROGRESSION

In this meadow-style planting, a sea of richly colored Asters are accented by flat-topped Sedums, both highly attractive to pollinators. Black Eyed Susans add a pop of gold, while ornamental grasses add airy texture and movement. As fall progresses to winter, the architecture of these plants will offer lasting visual interest, attracting birds with nutritious seeds and plenty of nesting materials.

A | Autumn Fire Sedum

Large flat-topped rose-pink flowers attract bees and butterflies from late summer into fall. Leave faded flowers standing for winter interest.
#HC014721

24" tall x 15-18" wide | Zones 3-9 | 5" Deep Pot
Low Fertility Soil, Well-Drained Soil | Plant with Ornamental Grass, Salvia, Rudbeckia, Aster

B | Karl Foerster Feather Reed Grass

(Calamagrostis acutiflora 'Karl Foerster')

Featuring a strong upright habit, its showy summer plumes ripen to tawny seed heads that decorate the fall and winter months. **#HC013984**
Available in Trays

48-60" tall x 24" wide | Zones 5-8 | 3.25" Pot
Most Soil Types Including Clay | Plant with Russian Sage, Rudbeckia, Agastache

C | Goldsturm Black Eyed Susan

(Rudbeckia fulgida 'Goldsturm')

A drought tolerant native cultivar with golden summer flowers that attract butterflies. Leave seed heads standing in winter to feed songbirds.
#HC014256 Available in Trays

18-24" tall x 24" wide | Zones 4-9 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Aster, Agastache, Artemisia, Nepeta

D | Heavy Metal Blue Switchgrass

(Panicum virgatum 'Heavy Metal')

A choice native grass with attractive upright blue-gray foliage. Tan flowers bloom in late summer, adding an airy texture that lasts through fall.
#HC014185

60-72" tall x 24-36" wide | Zones 4-9 | 3.25" Pot
Most Soil Types Including Clay | Plant with Agastache, Bee Balm, Aster, Sunflowers

NEW SUPERSTAR ASTER COLLECTION

E | Native Asters are important late-season food sources for migrating Monarchs and other bees and butterflies. This collection includes five Asters with varied colors and heights to refresh the garden as mid-summer blooms fade. Collection of 5 plants. **#HC017845**

Zones 4-8 | Well-Drained Soil

EXCLUSIVE

NATIVE

First Snow Health Aster #HC017406
Bluebird Smooth Aster #HC015194
Raydon's Favorite Aromatic Aster #HC015195

FANTASTIC FOLIAGE & FLYING FRIENDS

Long-lived and drought tolerant shrubs provide year-round interest. Enjoy the sights and sounds of sheltering songbirds and the incredible foliage that will glow in the autumn sun.

A | Gro-Low Sumac
(Rhus aromatica 'Gro-Low')

This low-growing native shrub spreads widely, featuring pollinator-friendly flowers in late spring, outstanding mahogany-red foliage in fall. **#HC017292**

18-24" tall x up to 8' wide | Zones 4-9 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Ornamental Grasses, Artemisia

B | Three-Leaf Sumac
(Rhus trilobata)

A tough native shrub with three season color - chartreuse late spring flowers, red summer fruit, and vibrant fall foliage that lights up the landscape. **#HC014248**

5-6' tall x 6' wide | Zones 4-8 | 5" Deep Pot | Most Soil Types Including Clay
Plant with Ornamental Grasses, Other Native Shrubs & Trees

C | La Plata Silver Leaf Rabbitbrush
(Chrysothamnus nauseosus 'La Plata')

A showy native shrub with fine silver-gray foliage blanketed with golden-yellow flowers from summer to early fall. In winter, birds will nest and feast on seedheads. **#HC015423**

5-7' tall x 5-7' wide | Zones 4-9 | 5" Deep Pot | Most Soil Types Including Clay
Plant with Russian Sage, Ornamental Grasses, Other Native Shrubs

D | Apache Plume
(Fallugia paradoxa)

One of our showiest western native shrubs, with single white flowers that bloom late spring to mid fall, followed by playful fluffy pink seed heads. **#HC014574**

48" tall x 48" wide | Zones 4-9 | 5" Deep Pot | Low Fertility Soil,
Well-Drained Soil | Plant with Groundcovers, Russian Sage

FEELING THE HEAT

Gardeners in the American West face increasingly challenging drought conditions. David Salman's commitment to cultivating a beautiful palette of waterwise plants has redefined xeriscaping. Beyond the dazzling garden designs, our xeric plants contribute to a robust ecosystem where people, plants, and wildlife thrive.

A | May Night Salvia
(Salvia sylvestris 'May Night')

Blooming prolifically with deep purple-blue flowers in late spring and summer, this outstanding perennial is known for excellent cold hardiness, vigor, and tolerance of heavy clay soils.
#**HC014266**

15-18" tall x 18" wide | Zones 4-9 | 5" Deep Pot
Well-Drained Soil | Plant with Echinacea, Agastache, Achillea

B | Kannah Creek Sulphur Buckwheat *(Eriogonum umbellatum v. aureum Kannah Creek)*

Native to western Colorado, this tough perennial features showy yellow flowers in late spring to attract pollinators. Flowers age to rust by late summer. *2007 Plant Select Winner.*
#**HC014549**

12-15" tall x 15-24" wide | Zones 3-8 | 5" Deep Pot
Sandy Soil, Clay Soil | Plant with Lavender, Penstemon, Ornamental Grass

C | Luminous Pineleaf Penstemon
(Penstemon pinifolius 'Luminous')

This compact western native with evergreen foliage lights up with a burst of bright orange flowers from late spring to early summer. *2016 Plant of the Year, 2016 Green Thumb Award Winner.*
#**HC014207** **Available in Trays**

8-10" tall x 12-15" wide | Zones 5-9 | 5" Deep Pot
Low Fertility and Well-Drained Soil | Plant with Lavender, Salvia, Ornamental Grasses

D | Rocky Mountain Penstemon
(Penstemon strictus)

One of the easiest to grow Penstemons, this long-lived evergreen perennial blooms mid to late spring with tall spikes of bright blue flowers.
#**HC014672**

36-60" tall x 36-42" wide | Zones 4-9 | 5" Deep Pot
Well-Drained Soil | Plant with Achillea, Agastache, Ornamental Grasses, Coreopsis

E | Phenomenal Lavender
(Lavandula intermedia Phenomenal PP#24,193)

This French hybrid is notable for outstanding cold hardiness and heat/humidity. Beautifully mounding form with tall mid-summer blooms.
#**HC015198** **Available in Trays**

30-32" tall x 24-32" wide | Zones 5-9 | 5" Deep Pot
Well-Drained Soil | Plant with Yarrow, Salvia, Ornamental Grasses

F | Thumbelina Leigh Dwarf English Lavender
(Lavandula angustifolia 'Thumbelina Leigh')

One of the most compact cultivars available, featuring plump, deep purple flower spikes blooming in summer and a strong sweet fragrance. #**HC014125**
Available in Trays

12-15" tall x 18" wide | Zones 5-10 | 5" Deep Pot
Low Fertility Soil, Well-Drained Soil | Plant with Delosperma, Pineleaf Penstemon

G | Munstead Violet English Lavender
(Lavandula angustifolia 'Munstead Violet')

Features some of the darkest Lavender flowers you can find, blooming late spring through summer. Plant to contrast bright flowers or softer lavender blooms. *A High Country Gardens Introduction.*
#**HC015224** **Available in Trays**

18-24" tall x 24-30" wide | Zones 5-9 | 5" Deep Pot
Low Fertility Soil, Well-Drained Soil | Plant with Artemisia, Penstemon, Groundcovers

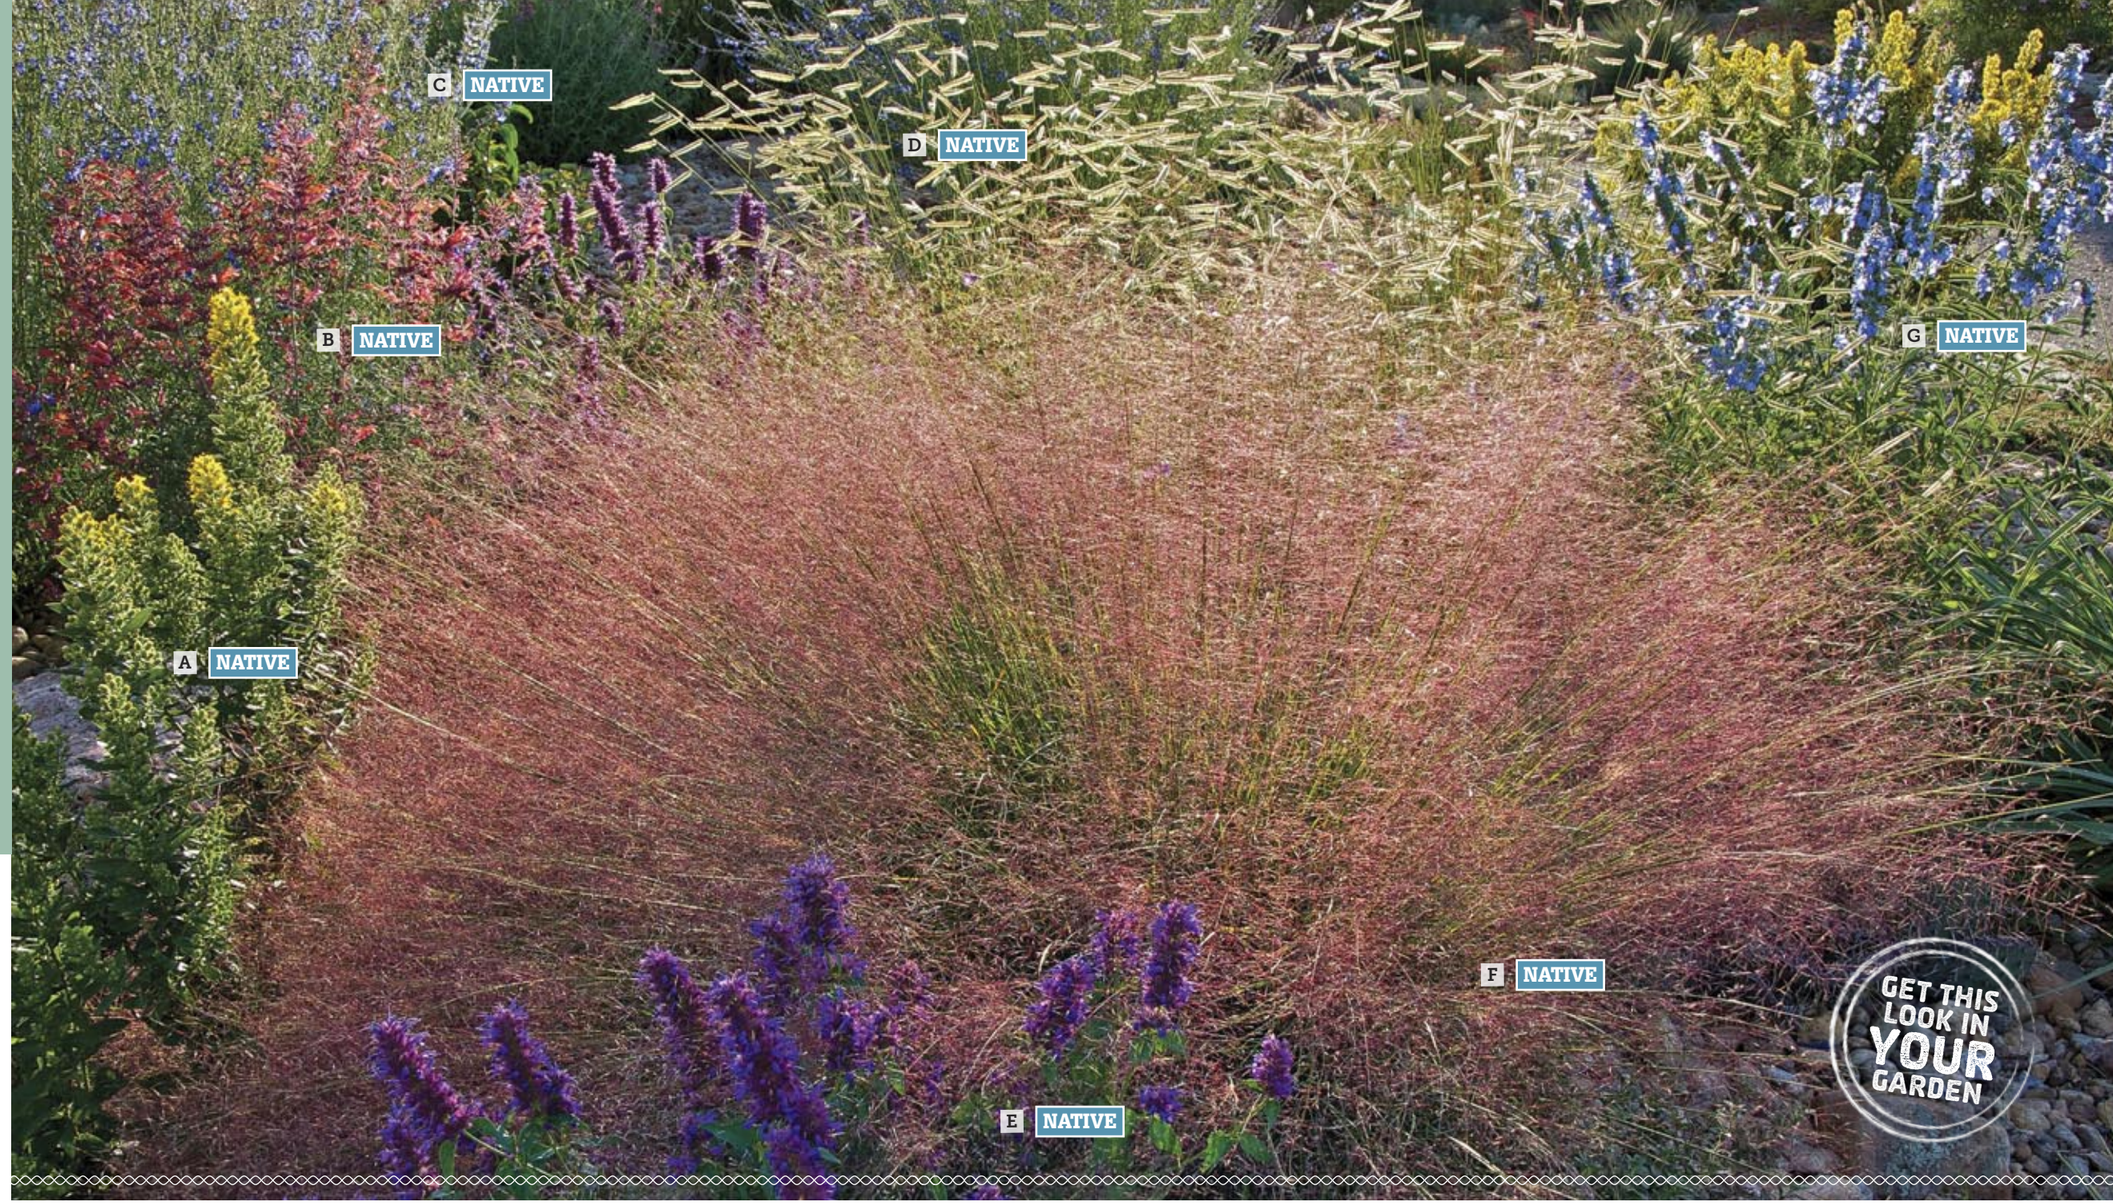

THE MANY BENEFITS OF ELEGANT LAVENDER

Native to the hot, dry, and rocky hillsides of the Mediterranean, Lavender performs beautifully in waterwise gardens. Its soothing fragrance is a treat for the senses, and graceful flowers draw bees and butterflies to the garden in summer.

LATE SEASON GLOW

Imagine evenings in the garden filled with vibrant flowers and airy grasses glowing in the golden hour of sunset. Catch glimpses of darting Monarch butterflies and hummingbirds fueling up for winter migration to warmer climates. It's a show that's not to be missed!

A | Golden Torch Goldenrod
(Solidago sp. 'Wichita Mountains')

A low-water native perennial pollinator magnet with upright bottlebrush-shaped flower spikes. Unsurpassed for its beauty and ability to attract bees and butterflies with late summer and fall blooms. **#HC014731**

30" tall x 24-30" wide | Zones 4-9 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Ornamental Grasses, Bee Balm, Aster

B | Agastache rupestris
(Agastache rupestris)

One of the toughest species in the native Agastache family, with graceful orange and lavender flowers blooming early summer to fall and a delicious licorice and mint fragrance.
#HC013928 Available in Trays

36-42" tall x 18" wide | Zones 5-9 | 5" Deep Pot
Low Fertility Soil, Well-Drained Soil | Plant with Ornamental Grasses, Lavender, Achillea

C | West Texas Grass Salvia
(Salvia reptans)

Blooming in early fall with an abundance of cobalt blue flowers, this xeric native sage is a cold hardy hummingbird favorite. **#HC014712**

36-48" tall x 15-18" wide | Zones 5-10 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Agastache, Penstemon, Black Eyed Susan, Salvia

D | Blonde Ambition Blue Grama Grass
(Bouteloua gracilis 'Blonde Ambition' PP 22,048)

A distinctive native grass for year-round interest. Chartreuse flowers appear in mid-summer, fade to blonde seed heads in fall. *A High Country Gardens Introduction. 2011 Plant of The Year.* **#HC015273 Available in Trays**

30-36" tall x 30-36" wide | Zones 4 - 9 | 2.5" Pot
Most Soil Types Including Clay | Plant with Lavender, Achillea, Salvia, Agastache

E | Blue Blazes Agastache
(Agastache 'Blue Blazes')

Essential for pollinator gardens, this large native cultivar features long-lasting lavender-blue flower spikes that provide a reliable nectar source for pollinators from mid-summer to fall.
#HC014365

42-54" tall x 24-30" wide | Zones 5-9 | 5" Deep Pot
Low Fertility Soil, Well-Drained Soil | Plant with Goldenrod, Penstemon, Ornamental Grassses

F | Undaunted® Ruby Muhly Grass
(Muhlenbergia reverchonii 'PUND01S')

More cold tolerant than most, this native ornamental grass displays a halo of airy amber flower spikes in late summer. *A High Country Gardens Introduction.* **#HC014165**
Available in Trays

24-36" tall x 18-24" wide | Zones 5-9 | 3.25" Pot
Most Soil Types Including Clay | Plant with Liatris, Rudbeckia, Aster, Goldenrod

G | Prairie Salvia
(Salvia azurea)

A xeric, deep-rooted native wildflower that brings a burst of blue to the late summer garden. Bumblebees and hummingbirds will flutter among the flowers on tall, willowy stems.
#HC014260

36-40" tall x 15" wide | Zones 4-8 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Coreopsis, Agastache, Aster, Black Eyed Susan

BUZZ ABOVE–BUILD BELOW

Don't treat your soil like dirt!

A | Yum Yum Mix

NPK: 2-1-1. Blended from the finest natural and organic ingredients, this fertilizer nourishes the beneficial microorganisms in the soil, increases the soil's humus content, and improves its ability to sustain and nurture healthy, more colorful plants.

To use: Add a scoop to each planting hole when transplanting and to top-dress established perennials in spring and fall.

#**HC015629** – 4.5 lb, 12 lb, 25 lb

Recommended For Planting With Perennials, Shrubs, Trees, and Lawns

B | Plant Success Soluble Mycorrhizal Root Inoculant

NPK: 0.5-0.1-7. A convenient root inoculant containing a wide spectrum of beneficial mycorrhizal fungi, bacterial species, and biostimulants to feed established plants. With less nitrogen than the granular formula, the soluble formula is preferable for use in fall.

To Use: Mix 1 tsp. per gallon of water and drench the root ball. 4oz treats up to 24 gallons of water.

#**HC015632** – 4 oz, 1 lb

Recommended For Planting With Perennials, Shrubs, and Trees

C | Soil Mender Worm Castings

A natural fertilizer to revive stressed plants and protect from soil-borne diseases without toxic chemical fungicides. High quality worm castings improve your soil texture over time and add healthy microbes to your soil.

To Use: Mix 1 part wormcastings to 2 parts soil when planting, or work 1/2 cup per plant into soil above roots in spring, early summer, and fall.

#**HC007551** – 10 lb

Recommended For Planting With Perennials, Shrubs, Trees, and Lawns

D | Soil Mender Rock Phosphate

NPK: 0-3-0. Stays put in the soil to slowly feed roots as plants need, and improves flower production. For best results, add to the soil near the roots when planting.

To Use: Add a scoop to planting holes when transplanting. Apply 2 lbs per 100 sq ft when planting a new bed or amending soil in spring; double for winter hardiness in fall.

#**HC007578** – 5 lb Bag

Recommended For Planting With Perennials, Shrubs, Trees, and Fall-Planted Flower Bulbs

DID YOU KNOW? Soil is a symbiotic mix of organic matter, minerals, gases, liquids, and organisms that work together to support life. For a garden buzzing with activity, fall is the best time to feed your soil. Nitrogen (N), Phosphorus (P), and Potassium (K) are the three primary nutrients in healthy soil that plants need to grow.

A | PowWow® Wild Berry Echinacea

(Echinacea purpurea PowWow® 'Wild Berry')

An improved variety bred for more saturated flower color, and compact floriferous growth habit, and long-lasting blooms for bees and butterflies. #**HC014545**

16-20" tall x 16" wide | Zones 4-9 | 5" Deep Pot
Compost Enriched Garden Loam Soil | Plant with Coreopsis, Geranium, Echinops

B | Globemaster Allium

(Allium Globemaster)

Giant 10" globe-shaped violet flower heads float over the garden on tall 2-3 foot stems from late spring to early summer. #**HC008438**

40" tall | 3 bulbs per sq. ft. | Zones 4 - 10 | Bag of 1 Bulb
Well-Drained Soil, Compost Enriched Garden Loam
Plant with Nepeta, Centranthus, Salvia

C | Purple D'Oro Reblooming Daylily

(Hemerocallis 'Purple D'Oro')

Show-stopping magenta flowers with chartreuse-yellow throats bloom all summer and into fall. One of the longest blooming daylilies available. #**HC015291**

14-20" tall x 14-20" wide | Zones 3-9 | Bag of 3 Bareroots
Most Soil Types Including Clay | Plant with Salvia, Lavender, Coral Bells

REMIX YOUR GARDEN

Tuck bulbs into an established perennial garden to add texture and layers of color. You can also extend your garden's bloom season by choosing varieties with a range of bloom times, including early, mid, and late spring. The key is to get started in fall, and next season, you'll be reveling in colorful hues and whimsical flower forms.

GREAT GIFTS, MADE EASY!

Delight friends and loved ones with High Country Gardens gift certificates, so they can choose the perfect plants for their garden. E-gift cards are sent immediately by email. Choose an amount: $25, $50, $75, or $100. #**HC017237**

La Plata Silver Leaf Rabbitbrush
SEE PAGE 7 FOR DETAILS

A | Shenandoah Switchgrass
(Panicum virgatum 'Shenandoah')

A selection of native prairie switchgrass grown for its burgundy foliage and pink flower spikes. Adds exceptional fall color to the garden, with grass blades tinted red and orange. **#HC014189 Available in Trays**

4-5' tall x 18" wide | Zones 4-9 | 3.25" Pot | Most Soil Types Including Clay
Plant with Other Ornamental Grasses, Bee Balm, Echinacea, Penstemon

B | Dakota Sunshine Maximilian's Sunflower
(Helianthus maximiliani 'Dakota Sunshine')

This vigorous perennial native sunflower is covered with abundant flowers in late summer. Especially useful in short season climates to avoid early frost. *A High Country Gardens Introduction.* **#HC014587**

5-6' tall (60-72" tall) x 36-60" wide | Zones 3-8 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Agastache, Ornamental Grasses

C | Blue Spires Russian Sage
(Perovskia atriplicifolia 'Blue Spires')

A hybrid Perovskia is known for amazing vigor and large blue flower spikes that draw pollinators for months. Its unique texture complements flowers and ornamental grasses. **#HC014678**

48" tall x 48" wide | Zones 4-9 | 5" Deep Pot | Most Soil Types Including Clay
Plant with Agastache, Ornamental Grasses, Black Eyed Susan

HABITAT, TEXTURE, MOVEMENT

A Garden For All Four Seasons

Plant grasses for upright foliage and soft color. Leave dried plumes and perennials standing to catch winter light and snowfall. The added benefit? The same steps for creating winter interest will also provide food and nesting materials for songbirds and pollinators!

D | Silky Thread Grass
(Nassella tenuissima)

This native grass adds gossamer grace anywhere it's planted. Silky plumes bloom from late spring into late summer and sway in the slightest breeze. Reseeds itself readily. Not for sale in CA. **#HC014168 Available in Trays**

18" tall x 12" wide | Zones 5-10 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Pineleaf Penstemon, Salvia, Yarrow

E | Prairie Blues Little Bluestem Grass
(Schizachyrium scoparium 'Prairie Blues')

This western selection has upright gray-blue foliage that warms to tan with hints of red and purple in fall. Native prairie grass provides seeds for birds and habitat for butterflies. **#HC014273 Available in Trays**

32-36" tall x 12-15" wide | Zones 3 - 9 | 3.25" Pot
Most Soil Types Including Clay | Plant with Echinacea, Salvia, Sedum

F | Sideoats Grama Grass
(Bouteloua curtipendula)

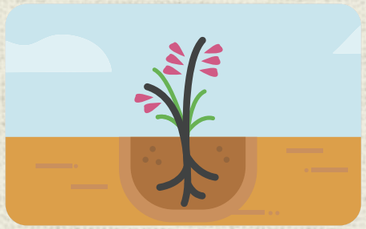

A native grass for hot, dry gardens. Graceful blue foliage pairs nicely with tan mid-summer flowers on finely tapered stems. Off-white seed heads catch the fall and winter light. **#HC017442 Available in Trays**

24-28" tall x 15" wide | Zones 3 - 8 | 5" Deep Pot
Sandy, Average, Dry Soil | Plant with Penstemon, Milkweed, Bearded Iris

WHY FALL IS FOR PLANTING

Fall is an ideal time to get a big head start on the next year's growing season.

FALL

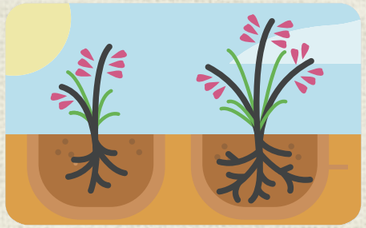

In the Southwest, and climates with mild winters and extreme summer heat, fall's cooling air and warm soil temperatures are ideal for establishing new transplants. 80% of a plant's root growth occurs in the late summer and fall months.

WINTER

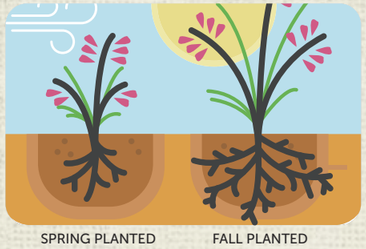

Root growth continues slowly through the late fall and winter as long as the soil is not frozen. Better root growth increases the amount of nutrients each plant can store over the winter. As temperatures cool, plants require less irrigation, which is valuable in drought-prone areas.

EARLY SPRING

Thanks to their head start, fall-planted perennials bloom more profusely the following spring. They will take off earlier and more vigorously than the same-sized plant transplanted in spring.

LATE SPRING

Fall-planted perennials will be established before the dry winds and withering heat of summer. Deep roots will help plants tolerate drought and challenging conditions.

PLAYFUL FORMS & POPS OF COLOR

Plant Allium bulbs in fall among perennials, where their graceful blooms transition the garden from spring to summer in style.

D | Purple Sensation Allium
(Allium aflatunense 'Purple Sensation')
Elegant 4-5" globe-shaped flower clusters bloom late spring to summer on tall, elegant stems. Plant among perennials for a colorful accent, or plant in clusters for a formal look.
#HC001348

20-30" tall | 9 bulbs per sq. ft. | Zones 3-9 | Bag of 10 Bulbs
Well-Drained Soil and Compost Enriched Garden Loam
Plant with Veronica, Bearded Iris, Ornamental Grasses

E | True Blue Allium
(Allium azureum)
Irresistible sky-blue flower clusters no more than 2 inches across add a contemporary cooling color to the early summer garden. Plant en masse for an eye-catching display.
#HC001344

18" tall | 16 bulbs per sq. ft. | Zones 3 - 9 | Bag of 20 Bulbs
Well-Drained Soil, Compost Enriched Garden Loam
Plant with Yarrow, Coreopsis, Ornamental Grass

F | Drumstick Allium
(Allium sphaerocephalon 'Drumstick')
Two-toned 1" flower clusters bloom in early summer. The dark red-violet creates a striking accent to perennials, grasses, and flower bulbs.
#HC001351

15-30" tall | 16 bulbs per sq. ft. | Zones 5 - 8 | Bag of 25 Bulbs
Well-Drained Soil, Compost Enriched Garden Loam
Plant with Black Eyed Susan, Shasta Daisy, Grasses

Even after blooms have passed, globe-shaped Allium seed heads add an interesting sculptural element in the garden and cut flower arrangements.

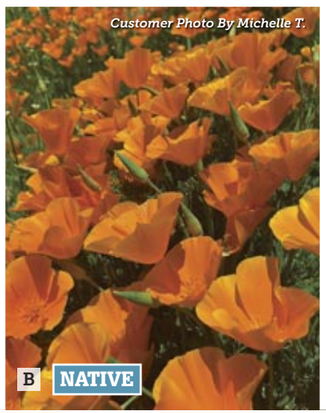

WILDFLOWERS

PLANTING THE SEEDS OF THE NEXT SUPER BLOOMS

In hot, dry areas, fall is the perfect time to plant wildflowers. Let nature do the work for you! Cooler temperatures and a natural increase in precipitation help create ideal conditions for seeds to germinate.

Remember, annual wildflowers have a one year life cycle and typically bloom in their first season, just 6-8 weeks after germination. Perennial wildflowers need one season to establish before they bloom, and will return year after year.

A | Zinnia Seeds *(Zinnia elegans)*

Easy-to-grow and vividly colorful blooms last from midsummer until frost. Native to Mexico, they offer a natural nectar source for migrating butterflies and hummingbirds. Annual. **#HC016008**

24-36" tall | Zones 1-10 | 1/4 lb, 1 lb, 5 lbs, 10 lb Bag
1/4 lb covers 1,555 sq ft., 1 lb covers 6,220 sq ft.
Well-Drained Soil, Compost Enriched Garden Loam, Most Soil Types Including Clay

B | California Poppy Seeds
(Eschscholzia californica)

Famous for its California super blooms. Create a luminous show with brilliantly orange blooms that last into the fall months. A ready re-seeder, it easily naturalizes. Annual. **#HC015878**

12-18" tall | Zones 3-9 | 1/4 lb, 1 lb, 5 lb, 10 lb Bags
1/4 lb covers 1,089 sq ft., 1 lb covers 4,355 sq ft.
Sandy Soil and Compost Enriched Garden Loam

C | Blue Flax Seeds
(Linum perenne)

Powder-blue blooms create a spectacular look in the meadow, on their own, or paired with other wildflowers. A ready re-seeder, it easily naturalizes. Perennial. **#HC015912**

18-30" tall | Zones 6-9 } 1/4 lb, 1 lb, 5 lbs, 10 lb Bags
1/4 lb covers 1,210 sq ft., 1 lb covers 4,840 sq ft.
Sandy, Loamy, and Drought/Dry Soil

CUSTOMER REVIEW | ★★★★★ California Poppy

Blooms for weeks and weeks!

"The flowers open up in the sun and close in the evening, and the neighbors can't stop commenting on them. They're one of the first to start in the spring and keep going well into the summer. The color is a glorious tangerine and is definitely the star of the show in my yard. They're excellent paired with taller things like cornflowers and red poppies... I will definitely be growing these every year."

— Erin R. in Salt Lake City, UT

D | Black Eyed Susan Seeds
(Rudbeckia hirta)

A true staple of any garden or meadow, these versatile, drought-tolerant wildflowers light up the summer landscape with their sunny golden blooms from summer to fall. Biennial. **#HC015971**

12-36" tall | Zones 3-8 | 1/4 lb, 1 lb, 5 lb Bag
1/4 lb covers 5,445 sq ft., 1 lb covers 21,780 sq ft.
Well-Drained Soil, Compost Enriched Garden Loam, Most Soil Types Including Clay

E | Texas Bluebonnet Seeds
(Lupinus texensis)

The state wildflower of Texas is famous around the world for its blue spring superblooms. Outside of the southwest, grow it as a novelty or a taste of home. Annual. **#HC015918**

8-12" tall |Zones 3-8 | 1 oz, 1/4 lb, 1 lb, 5 lb Bag
1 oz covers 45 sq. ft., 1 lb covers 725 sq ft.
Well-Drained Soil, Compost Enriched Garden Loam

F | Native West Wildflower Seed Mix
(Lupinus texensis)

A mix of 15 annual and perennial native wildflowers for the Rocky Mountain region. Favorites include Indian Blanket, Rocky Mountain Columbine, and Yellow Prairie Coneflower. **#HC016986**

48" tall | Zones 2-6 | 1/4 lb, 1/2 lb, 1 lb, 5 lb, 10 lb Bag | 1/4 lb covers 250-500 sq ft.
Well-Drained Soil

G | Dry Area Wildflower Seed Mix

A mix of 25 wildflowers that thrive in dry, well-drained, and sandy soils. Featuring 14 annual wildflowers that bloom in the first season, and 11 perennial varieties that flower for years to come. **#HC016966**

48" tall | Zones 1-9 | 1/4 lb, 1/2 lb, 1 lb, 5 lb, 10 lb, 25 lb Bag | 1/4 lb covers 250-500 sq ft.
Well-Drained Soi, Compost Enriched Garden Loam

CUSTOMER REVIEW | ★★★★★ Native West Wildflower Mix

Lovely, robust, tall, and colorful!

"I bought this seed mix to use as a bug-friendly native bee enticement around my vegetable garden. It worked so beautifully and grew in so well, we're planting it as a pollinator-border in the front yard! We seeded in late winter so that the snow could do its magic. The flax grew in very well, as did the black-eyed Susans. I thoroughly recommend this seed blend."

— Amateur Plant Lady in SW Idaho

SUSTAINABLE LAWNS

IMPROVING THE EARTH * SAY YES TO LESS * ONE LAWN AT A TIME

RESTORE A PRAIRIE OR RETIRE YOUR LAWN MOWER

Planting a low-water lawn is easy with our sustainable grass seed mixes. Drought tolerant, low-growing grass seeds will give you the classic look of a lush green lawn, without the burden of conventional turf maintenance. To restore a meadow and provide wildlife habitat, plant resilient native grass seed.

A | No Mow Lawn Grass Seed

Enjoy a soft, deep green lawn that you never need to mow. A mix of 6 dwarf grasses provide a dense, deep-rooted, drought-tolerant turf with a soft, swirling pattern. **#HC016055**

3-12" tall | Zones 3-7 | 5 lb, 10lb Bag (5 lbs per 1,000 sq ft)
Well-Drained Soil and Most Soil Types Including Clay

B | Low Work and Water Dwarf Fescue Grass Seed

Grow the ideal low-maintenance turf for yards and play areas. Enjoy the beauty and benefits of a turf grass lawn without all the work and water. **#HC016052**

12" tall | Zones 4-10 | 5 lb, 10lb Bag (8-10 lbs per 1000 sq ft)
Well-Drained Soil and Most Soil Types Including Clay

C | High Mountain Native Grass Seed Mix

(Linum perenne)

Restore a high elevation meadow to provide habitat for songbirds and beneficial insects, and enjoy the serene natural beauty of a grassy meadow swaying in the breeze. These drought-tolerant cool season grasses thrive in mountain areas. **#HC016047**

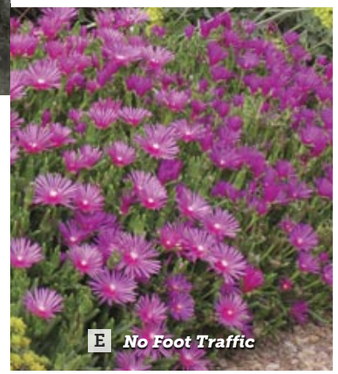

48" Tall | Zones 6-9 | 1 lb, 5 lb, 10lb Bags (1-2 lbs per 1,000 sq ft)
Well-Drained Soil and Most Soil Types Including Clay

Plant Yum Yum Mix with grass seed to help establish a lush green lawn. See **page 12** for details.

EASY-CARE GROUNDCOVERS

D | Pink Creeping Thyme

(Thymus praecox ssp. arcticus Coccineus)

Glossy evergreen foliage is covered with light pink flowers in early summer, for a soft elegant look on an impressively xeric plant with tough woody stems. **#HC014311 Available in Trays**

2" tall x 18-30" wide | Zones 4-9 | 2.5" Pot
Well-Drained Soil | Plant with Oenothera, Veronica, Nepeta

CREATE A CARPET OF COLOR

Looking for a no-mow lawn alternative that's a step above typical turf grass? These fast-growing groundcovers will quickly fill in your outdoor space to create a carpet of color and texture. Best of all, the colorful flowers provide a tasty treat for pollinators.

E | Cooper's Hardy Ice Plant

(Delosperma cooperi)

A perfect perennial where bold color is on the wishlist. This vigorous groundcover boasts large magenta flowers for much of the summer. **#HC015395 Available in Trays**

1-2" tall x 15-18 " wide | Zones 5-9 | 2.5" Pot
Well-Drained Soil | Plant with Cacti, Sedum

F | White Nancy Lamium

(Lamium maculatum 'White Nancy')

An outstanding Old World groundcover for shade and semi-shade. Blooms all summer with bright white flowers held over green and white variegated foliage. **#HC014118 Available in Trays**

4-6" tall x 15-18" wide | Zones 3-9 | 2.5" Pot
Most Soil Types Including Clay | Plant with Columbine, Hummingbird Trumpet

G | Turkish Veronica

(Veronica liwanensis)

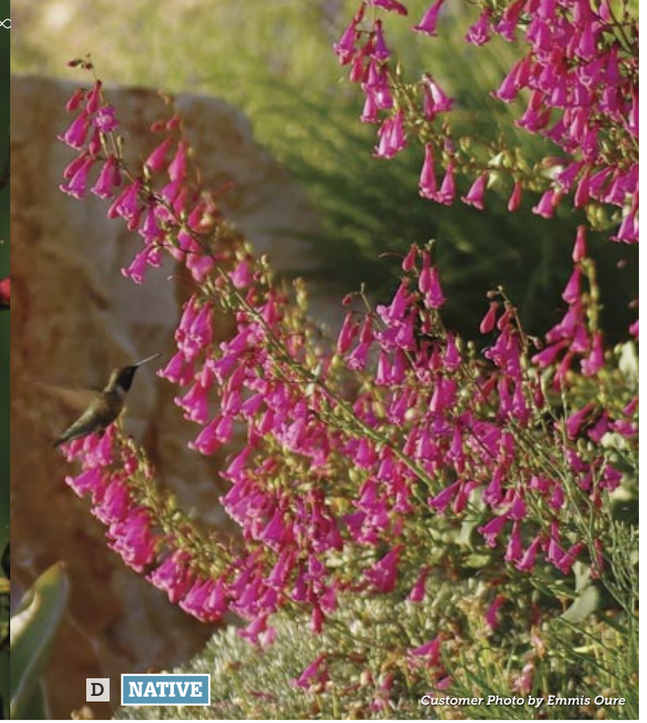

A showy evergreen groundcover that spreads easily to enhance pathways and patios or replace lawn grass. Bright blue flowers cover the plant in late spring. **#HC014319 Available in Trays**

2" tall x 18" wide | Zones 4-8 | 2.5" Pot
Low Fertility Soil, Well-Drained Soil | Plant with Artemisia, Salvia, Creeping Thyme

FUELING THE FALL FLIGHT

Some hummingbirds are year-round residents in the American South and West, but there are about a dozen species that migrate to and from the warm winter climates of Mexico and Central America. These tiny pollinators travel thousands of miles – including long stretches over water – so they need plenty of energy reserves! To help them fuel up for their fall flight, plant generous groupings of native plants with natural nectar.

A | Redbirds In A Tree

(Scrophularia macrantha)

A rare find native to the southern mountains of New Mexico and Arizona. Blooms all summer with spires of small red flowers that resemble a flock of birds perched on a tree branch. **#HC017809**

36-48" tall x 18" wide | Zones 5-10 | 5" Deep Pot
Compost Enriched Garden Loam Soil
Plant with Salvia, Russian Sage, Echinacea

B | Amistad Salvia

(Salvia 'Amistad' PP#23,578)

A large growing Sage that blooms for months with huge royal purple flowers. If outside of your zone, try growing in pots and overwintering in a garage to enjoy the spectacular flowers. **#HC015437**

3-5' tall x 4-6' wide | Zones 8-10 | 5" Deep Pot
Well-Drained Soil, Most Soil Types Including Clay
Plant with Black Eyed Susan, Ornamental Grasses

C | Firecracker Penstemon Richfield Strain

(Penstemon eatonii Richfield Strain)

Selected for its overall vigor and flower production, this native Penstemon blooms in early to mid-spring with tall spikes of brilliant red bell-shaped flowers. **#HC014201**

24-36" tall x 15" wide | Zones 4-9 | 5" Deep Pot | Well-Drained Soil | Plant with Salvia, Yarrow, Ornamental Grasses

D | Coconino County Desert Penstemon

(Penstemon pseudospectabilis 'Coconino County')

An incredible bloomer with numerous spikes of intensely pink flowers in late spring. A willing re-seeder, this native perennial spreads gently, helping to fill difficult-to-plant areas. **#HC014671**

30-36" tall x 18" wide | Zones 5-9 | 2.5" Pot
Low Fertility Soil, Well-Drained Soil
Plant with Lavender, Yarrow, Coreopsis

E | Jacob Cline Bee Balm

(Monarda 'Jacob Cline')

One of our most spectacular native Bee Balm hybrids with long tubular flowers. Excellent mildew resistance and long-lasting mid-summer blooms. **#HC014650**

36-48" tall x 36" wide | Zones 3-8 | 5" Deep Pot
Compost Enriched Garden Loam Soil
Plant with Russian Sage, Salvia, Black Eyed Susan

F | Major Wheeler Honeysuckle Vine

(Lonicera sempervirens 'Major Wheeler')

This native honeysuckle blooms non-stop from late spring through summer. Considered the longest blooming Lonicera and a favorite nectar source for hummingbirds. *2010 Plant of the Year.* **#HC014630**

6-8' tall x 5-10' wide | Zones 4-8 | 5" Deep Pot
Well-Drained Soil, Most Soil Types Including Clay
Plant with Evergreen Shrubs & Trees

CUSTOMER REVIEW | ★★★★★ **Major Wheeler**

Fabulous plant just keeps blooming and growing!

"This is a fabulous plant. I have planted several in northern CO and they grow like gangbusters and bloom non-stop in the growing season. Practically evergreen in northern CO, which I did not expect! They don't require a lot of water either. I will continue to find places for this plant, I just love it and so do the hummingbirds."
