Designing Your Garden With Adaptable Plants

Adaptability is the foundation of survival and resilience. As we experience unpredictable weather as a result of climate disruption, adaptability in the plants we garden with becomes ever more important. Choosing resilient, garden-tested plants that match the growing conditions of your region is the first step toward a garden that can thrive in a changing climate.

We gardeners need to be adaptable in our thinking, too. Our gardens are a powerful tool for us to combat climate disruption, habitat loss, and the declining population of pollinators and songbirds. When planning our landscapes, we need to factor in more than the desire for an attractive flower and a manicured lawn. Planting for habitat and healthy living soil is how each of us can protect a fragile planet filled with wondrous plants and animals.

Together, we're improving the earth, one garden at a time.

David Salman *Founder & Chief Horticulturist*

NEW FlowerKisser™ Delft Blue & White English Lavender

(Lavandula angustifolia 'WWGLAV')

Exclusive to High Country Gardens. An unusual color-changing lavender, with pure white buds in late spring. Light blue flowers follow, aging to soft purple by early to mid-summer. A marvelous complement to lavenders with darker flowers. *A High Country Gardens Introduction.* #HC017882

18-22" tall x 24-30" wide | Zones 5-9 | 5" Deep Pot
Well-Drained Soil | Plant with Yarrow, Salvia, Gaillardia

On the Cover: *New to our assortment for Spring 2022, 'Splendens' Armeria thrives in poor soil and hot, dry sites.* *See page 11 for details.*

GREETINGS FROM THE GREENHOUSE

Our team has been working hard over the past few years. Improvement means being adaptable, flexible, and having a growth mindset. Our team strives to be proud of the products that we supply our community. Working through a challenging year, we had many accomplishments, which include moving into a new warehouse, improving efficiency, and creating an inclusive and diverse work culture.

OTHER FEATURES

NATIVE — This symbol indicates Native North American or Native Plant Hybrids.

EXCLUSIVE — This symbol indicates plants developed and introduced by the horticulturists at High Country Gardens.

Plant Select® plant smarter — Plant Select® is a collaboration between Colorado State University and Denver Botanic Gardens. These introductions are garden-tested waterwise plants proven to thrive in the High Plains and Intermountain West.

REDEFINING XERISCAPING

For over 25 years, Chief Horticulturist David Salman's commitment to cultivating a beautiful palette of waterwise plants has helped gardeners save water without sacrificing on a stunning display of flowers and foliage. Our plant introductions are selected for their beauty and adaptability, featuring unique bloom colors, durability, and exceptional value to pollinators.

A NEW Zig Zag Blue Grama Grass
Bouteloua gracilis 'Zig Zag' PPAF

Horizontal flowers bloom in mid-summer, then ripen to a light tan and curl upward, holding for months through winter. A fantastic long-lived grass for waterwise gardens. *A High Country Gardens Introduction.* #HC017878

15-18" tall x 15-18" wide | Zones 4-9 | 2.5" Pot
Most Soil Types Including Clay | Plant with Aster, Ornamental Oregano, Liatris

B | Glowing Embers® Agastache
Agastache rupestris 'Glowing Embers®'

Hummingbirds adore the nectar-rich flowers, which contrast beautifully with the fine pewter-gray foliage of this xeric plant. *A High Country Gardens Introduction.* #HC015305
Also available in a Tray of 9

24-26" tall x 24-28" wide | Zones 5-9 | 5" Deep Pot
Well-Drained Soil | Plant with Melampodium, Agave, Dwarf Conifers

C | Ultra Violet Salvia
Salvia Ultra Violet PP#21,411

A hybrid with exceptional tolerance to both winter cold and summer heat. Vivid violet flowers bloom all season beginning in early summer. *A High Country Gardens Introduction.* #HC014714

18-20" tall x 24-28" wide | Zones 6-9 | 5" Deep Pot
Well-Drained Soil | Plant with Lavender, Ornamental Grasses, Butterfly Weed

D | Prairie Gold Butterfly Weed
Asclepias tuberosa 'Prairie Gold'

Grow this special native cultivar to add unexpected color and an interesting conversation starter to your pollinator garden. *A High Country Gardens Introduction.* #HC017842

18-24" tall x 12-15" wide | Zones 4-9 | 2.5" Pot
Most Soil Types | Plant with Lavender, Salvia, Ornamental Grasses

E | Coral Glow Texas Yucca
Hesperaloe parviflora Coral Glow PP#29,626

An outstanding performer, this cold-hardy succulent blooms all summer once established with six-foot tall spikes of glowing coral-orange flowers. A hummingbird favorite. *A High Country Gardens Introduction.* #HC014090

5-6 ft. tall x 3-4 ft. wide | Zones 5-9 | 5" Deep Pot
Well-Drained Soil | Plant with Cold Hardy Cactus, Lavender, Agave

F | Red Rocks Penstemon
Penstemon mexicali 'Red Rocks'

A vigorous hybrid that blooms late spring through summer with large spikes of stunning rose-pink flowers. Attractive glossy, narrow foliage. *A 1999 Plant Select® Winner.* #HC014674

18" tall x 15" wide | Zones 5-9 | 5" Deep Pot
Well-Drained Soil | Plant with Coreopsis, Yarrow, Nepeta

CUSTOMER REVIEW | ★★★★★

Red Rocks Penstemon

"Good root systems and healthy plants; thanks HCG! These plants sat quietly the first season... getting more robust. Now, the blooms are popping out all over and are really showy in my garden! This plant is going to be a conversation piece!"

— BUSYBIZZYBEE | **Colorado**

WATER CONSERVATION THROUGH INSPIRED GARDEN DESIGN

Watershed gardening is an intentional way to conserve resources and establish a garden with resilient plants. Make the most of the rain that does fall to recapture, retain, filter, and purify runoff for a healthy ecosystem.

Recapture & Retain

Did you know that urban runoff is the #1 source of water pollution? Slow the flow of water to use it carefully and efficiently in your garden. Planting in a swale prevents runoff, so water can soak into the soil, reducing the need for irrigation.

Filter & Purify

Deep-rooted, drought-resistant plants and healthy soil help to filter water and remove pollutants. Your thriving garden adds curb appeal while contributing to healthy bodies of water downstream.

A | Purple Dome New England Aster

Aster novae-angliae 'Purple Dome'

Blooms in early fall with hundreds of deep lavender-purple flowers, providing essential late-season food for bees. A compact variety with a neat mounding habit. #HC014464

12-24" tall x 12-18" wide | Zones 3-8 | 5" Deep Pot
Well-Drained Soil | Plant with Artemisia, Rudbeckia, Russian Sage

B | Powis Castle Artemisia

Artemisia 'Powis Castle'

Accentuate ornamental grasses and flowering perennials with touchably soft, finely-textured silvery foliage and an attractive mounding habit. #HC013947

30" tall x 36" wide | Zones 4-9 | 5" Deep Pot
Well-Drained Soil | Plant with Aster, Yarrow, Russian Sage

C | Karl Foerster Feather Reed Grass

Calamagrostis acutiflora 'Karl Foerster'

The world's most popular ornamental grass. Tall upright stems and tawny seed heads decorate the garden through the fall and winter months. #HC013985
Also available in a Tray of 9

48-60" tall x 24" wide | Zones 5-8 | 5" Deep Pot
Well-Drained Soil | Plant with Rudbeckia, Russian Sage, Agastache

D NEW Compass Plant

Silphium laciniatum

A must-have for habitat gardens. A favorite of native bees and seed-eating songbirds. This tough Great Plains native can live for decades! #HC017874

5-9' tall x 18-36" wide | Zones 3-8 | 5" Deep Pot
Compost Enriched Garden Loam Soil | Plant with Ornamental Grasses, Hollyhocks, Shrubs

G NEW Deam's Black Eyed Susan

Rudbeckia fulgida v. deamii

Easy to grow, vigorous, and favored for its toughness, prolific flowering, and sturdy upright habit. Good for prairie gardens, offering food and habitat for pollinators and birds. #HC017875

24-36" tall x 12-18" wide | Zones 4-9 | 5" Deep Pot
Compost Enriched Garden Loam Soil | Plant with Salvia, Ornamental Grasses, Bee Balm

E | Jacob Cline Bee Balm

Monarda didyma 'Jacob Cline'

One of our most spectacular native hybrids, with excellent mildew resistance. Tubular deep red flowers bloom for over a month in mid-summer. #HC014650

36-48" tall x 36" wide | Zones 3-8 | 5" Deep Pot
Compost Enriched Garden Loam Soil | Plant with Echinacea, Rudbeckia, Echinops

F | Purity Dwarf Candytuft (Iberis)

Iberis sempervirens 'Purity'

A compact variety that blooms in late spring with a profusion of bright white flowers. Mounding evergreen foliage looks good year-round. #HC017787

6" tall x 12" wide | Zones 4-9 | 5" Deep Pot
Sandy, Average Soil | Plant with Veronica, Artemisia, Salvia

CUSTOMER REVIEW | ★★★★★ Jacob Cline Bee Balm

"These are tough plants that are surviving a slope in a butterfly garden. The soil is sub-average and can be dry. They are flourishing after being planted this spring... I have seen hummingbirds get nectar from these plants, and they attract bees and butterflies."

— Gardener In Tennessee

Support A Healthy Ecosystem

Looking for an inventive way to manage water use in your garden? With deep-rooted native plants, our Watershed Wise Pre-Planned Garden is an easy way to get started.

WATERSHED WISE PRE-PLANNED GARDEN

While contributing to a healthy watershed by saving water and filtering runoff, you can enjoy a beautiful, low-maintenance garden. Below ground, resilient plants tolerate drought, wetter conditions, and salts that may accumulate in runoff. Above ground, colorful flowers and grasses add curb appeal to your property, help support pollinators, and create habitat for wildlife. Garden of 18 plants covers 100 sq ft. Garden of 9 plants covers 50 sq ft.

Zones 5-7 | Well-Drained Soil

#HC017896 Garden of 18 plants #HC017897 Garden of 9 plants

To recapture and retain runoff, plant your garden in a swale, or a shallow depression about 6-8 inches deep. Create a wide, shallow area to slow the flow and allow water to soak into the soil.

A | Golden Torch Goldenrod #HC014731

B | Powis Castle Artemisia #HC013947

C | Bluebird Smooth Aster #HC015194

D | Gray Headed Prairie Coneflower #HC014239

E | Shenandoah Switchgrass #HC014190

F | Rose Swamp Milkweed #HC015337

G | Crystal Peak White Obedient Plant #HC015303

H | Undaunted® Ruby Muhly Grass #HC014166

LIVING SOIL

THE FUNDAMENTAL BUILDING BLOCK FOR EVERY GARDEN

For long-term ecological balance, support the symbiosis of soil and plants in your garden by adding all-natural amendments and soil-boosting perennials.

A NEW Wild Perennial Lupine

Lupinus perennis

Lupines pull nitrogen from the air to enrich the soil. Once established, they will naturalize, attracting bees, butterflies, and hummingbirds with late spring blooms. #HC017873

12-36" tall x 10" wide | Zones 3-8 | 5" Deep Pot | Sandy Soil, Compost Enriched Garden Loam Soil | Plant with Echinacea, Butterfly Weed

B | Llano Indian Grass

Sorghastrum nutans 'Llano'

Indian grass improves garden health by removing pollutants from the soil. This hard-to-find blue-bladed selection features golden plumes that provide seeds for songbirds. #HC014736

5-6' tall x 18" wide | Zones 3-8 | 5" Deep Pot | Most Soil Types Including Clay Plant with Agastache, Perennial Sunflower, Sea Holly

C | Greek Yarrow

Achillea ageratifolia

Utilize the benefits of Yarrow to improve heavy clay soil texture in a low-growing groundcover form. Evergreen foliage is topped with a late spring display of bright white flowers. #HC013919

4" tall x 18" wide | Zones 4-8 | 2.5" Pot | Most Soil Types Including Clay Plant with Veronica, Sedum, Penstemon

We only carry all-natural soil amendments that we trust and use in our own gardens. Our top picks, including worm castings, Yum Yum Mix, and mycorrhizal root inoculant encourage vigorous plant growth while protecting your local ecosystem.

NEW PLANTS FOR WESTERN GARDENERS

For gardeners in the American West facing increasingly challenging drought conditions, planting tough and adaptable Santolina and Armeria will add color and texture to any garden or landscape.

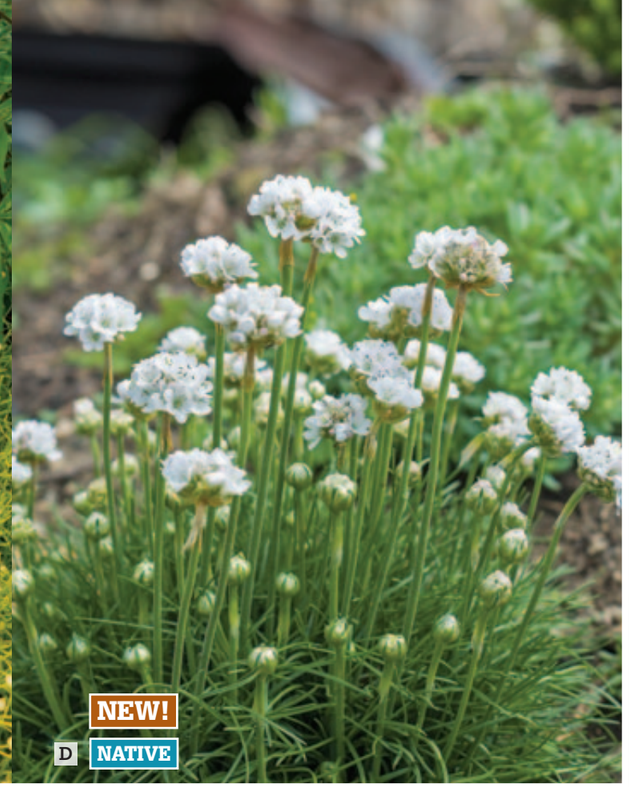

DELIGHTFUL SANTOLINA

Santolina is an aromatic Old World herb native to the Mediterranean region. If you have success growing Lavender, your garden should be a good fit for Santolina. Its gentle mounding form with evergreen foliage works just as well in a naturalistic garden as it does in a formal setting.

CHARMING ARMERIA

Don't let its playful form fool you – Armeria is a rugged native plant for hot, dry locations. It thrives in lean soil and gravelly tundra, often found blooming along salty, wind-blown coastal cliffs and beaches. Cheerful bee-friendly flowers add a pop of color to rock gardens and xeriscapes. Evergreen grass-like foliage makes for a great lawn alternative.

A NEW Green Santolina
Santolina rosmarinifolia
Fine aromatic foliage resembling Rosemary forms a delicate, evergreen mound. Yellow button-shaped blooms attract bees in mid-to-late spring. #HC017876
12-24" tall x 24-36" wide | Zones 6-10
5" Deep Pot | Well-Drained Soil

B NEW Lemon Fizz Santolina
Santolina virens 'Lemon Fizz'
Moss-like foliage forms gentle drifts in eye-catching chartreuse. Bright yellow flowers dot the compact form in summer. Good for containers. #HC017871
12-18" tall x 12-24" wide | Zones 6-9
5" Deep Pot | Well-Drained Soil, Sandy Soil

C NEW Gray Santolina
Santolina chamaecyparissus
Silvery, fragrant foliage forms an attractive evergreen groundcover. In summer, gold flowers bloom abundantly on tall wiry stems. #HC017877
12-24" tall x 24-36" wide | Zones 6-9
5" Deep Pot | Well-Drained Soil

D NEW Morning Star White Armeria
Armeria maritima 'Morning Star White'
A profusion of white flower clusters bounce atop stiff stems, and are favored by honeybees. #HC017885
6" tall x 8" wide | Zones 4-8
5" Deep Pot | Well-Drained Soil

E NEW Splendens Armeria
Armeria maritima 'Splendens'
A popular selection covered with rose-pink flower clusters, adding a burst of vivid color to the garden. #HC017863
6-12" tall x 6-12" wide | Zones 4-8
5" Deep Pot | Well-Drained Soil

F NEW Victor Reiter Armeria
Armeria maritima 'Victor Reiter'
An especially compact selection with a profusion of light pink flower clusters. A delicate appearance, but a rugged plant. #HC017886
3-6" tall x 6-12" wide | Zones 4-8
5" Deep Pot | Well-Drained Soil

WILDFLOWER SEEDS

B EXCLUSIVE

C EXCLUSIVE

TOUGH WILDFLOWERS FOR RUGGED LANDSCAPES

These resilient wildflower mixes thrive in lean soils. Once established, they need little water to produce vivid blooms that draw pollinators and birds from near and far. Plant for a stunning meadow, no-mow lawn, or casual garden.

A | Intermountain Native Wildflower Seed Mix

Tough native wildflowers can handle the region's hot summers and harsh winter climate. Attract pollinators with colorful blooms including Lupines, Coneflowers, and more. #HC017631

Zones 4-8 | ¼ lb, ½ lb, 1 lb, 5 lb | Well-Drained Soil

B | High Country Butterfly Habitat Wildflower Seed Mix

Nectar-rich flowers and host plants for monarch butterflies grow into a symphony of brilliant colors from late spring through fall. Includes Oregon Sunshine, Milkweed, and more. #HC017633

Zones 6-8 | ¼ lb, ½ lb, 1 lb, 5 lb | Well-Drained Soil

C | High Country Meadow Native Wildflower Seed Mix

A hardy, drought resistant mix of over 20 native wildflowers that thrive with little maintenance. Includes Liatris, Rudbeckia, and more. #HC016974

Zones 2-6 | ¼ lb, ½ lb, 1 lb, 5 lb, 10 lb | Well-Drained Soil

COMING SOON!

NEW WILDFLOWER SEED MIXES

It is more important than ever to develop wildflower mixes that can tolerate the harsh heat of the West while providing nectar and habitat for pollinators. We're introducing five exclusive new wildflower seed mixes this spring, designed specifically for western gardeners who want to contribute to a thriving ecosystem.

Western Hummingbird

WILDFLOWER SEED MIX

The Southwest is home to more species of hummingbird than any other region of the country. With habitat loss and climate change threatening our flying friends, we must offer natural nectar for hummingbirds in our gardens and meadows. These wildflowers provide abundant nourishment and thrive in the harsh heat of the west.

Superbloom

NATIVE WILDFLOWER SEED MIX

Every year, people flock to see rolling hills bursting with gold, pink, and blue blooms. Bring that beauty to your home! Our mix features easy-to-grow native wildflowers, including California Poppies and more, that willingly reseed each year for your own little superbloom.

Little Prairie

NATIVE WILDFLOWER SEED MIX

Thriving prairies with abundant plant and animal life once defined the landscape west of the Mississippi. Today, there is a growing movement to restore this ecosystem, starting right in our own backyards. Deep-rooted native flowers and grasses bring lasting color, sequester carbon, and restore topsoil.

SUSTAINABLE LAWNS

WALK, RUN & PLAY ON A HEALTHY LAWN

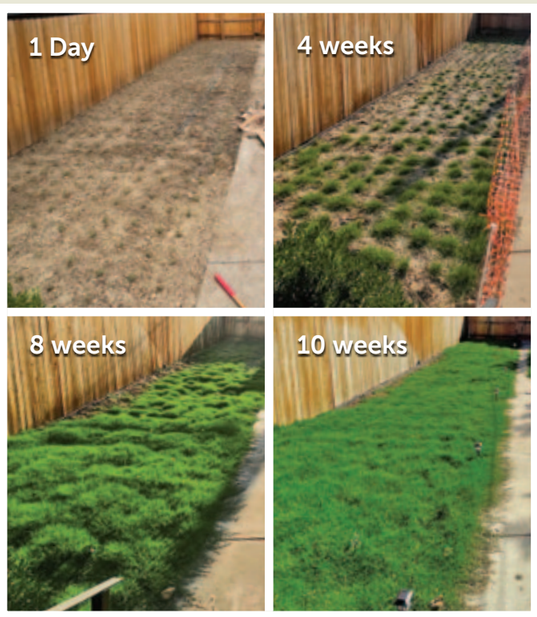

Lawn grasses create a soft surface for outdoor living spaces and complement showy flowers in the garden. High Country Gardens is your source for waterwise lawn solutions, including grass plugs and grass seeds that are drought tolerant, hardy, and low-maintenance.

Dog Tuff™ Grass Plugs
(Cynodon hybrida 'PWIN04S')

No need to mow this cushiony lawn! Highly durable, it's perfect for high traffic, play areas, and pets. Deep-rooted grass is resistant to drought and dog patches. *A Plant Select® Introduction.* #HC007949

2.5-4" tall | Zones 5-10 | Tray of 70 Plugs
Covers 17-70 sq ft | Most Soil Types Including Clay

A BACK YARD IN DENVER GETS A SUSTAINABLE LAWN MAKEOVER

"So Happy With This Grass"

CUSTOMER REVIEW | ★★★★★ | Dog Tuff™ Grass

"When I moved into my little house in the Highlands area of Denver I was so excited to finally have a backyard of my own – but it needed a lot of work. I did a lot of research on types of grass and wanted something soft, hardy (2 dogs), drought-tolerant, and low maintenance (no mow!). Dog Tuff delivered on all fronts."

— Kat in Denver, CO

PROBLEM-SOLVING PERENNIALS

Our gardening experts curate perennial collections to solve some of the most common challenges for Western gardens. Start a new flower bed or enhance your garden with our premium plant pairings.

BLOWIN' IN THE WIND COLLECTION

NEW! Have a garden where high-speed winds are a challenge? These tough yet cheerful flowers and elegant grass will sway with the breeze. Garden-tested, easy-to-grow, and ideal for low-water landscapes. Pollinator-friendly flowers bloom from early to late summer. Collection of 4 plants (**A**–**D**). #HC017898

Zones 5-9 | Well-Drained Soil

EXCLUSIVE

A | Moonbeam Coreopsis *Coreopsis verticillata 'Moonbeam'*

A vigorous native hybrid with beautiful lemon-yellow flowers and delicate lacy foliage. This compact plant blooms all summer long, attracting butterflies. #HC014011

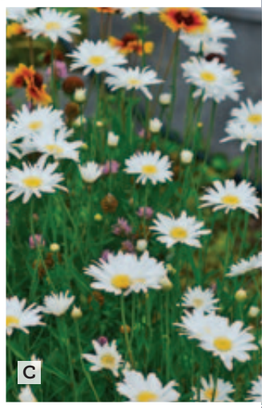

12-18" tall x 12-18" wide | Zones 4-9 | 5" Deep Pot | Well-Drained Soil

B | Silky Thread Grass *Nassella tenuissima*

An excellent xeric companion plant that grows in many soil types. Brings gossimer grace with plumes of silky flowers softly blooming from late spring into late summer. Re-seeds readily. Not for sale in CA. #HC014168 **Also available in a Tray of 9**

18" tall x 12" wide | Zones 5-10 | 5" Deep Pot | Most Soil Types Including Clay

C | Becky Shasta Daisy *Leucanthemum x superbum 'Becky'*

Selected for larger flowers and sturdier stems. Blooming mid-summer to early fall, these low-care, long-blooming flowers can spread for more blooms each year. #HC017775

36-48" tall x 24-36" wide | Zones 4-9 | 5" Deep Pot | Most Soil Including Clay

D | Hidcote Superior English Lavender
Lavandula angustifolia 'Hidcote Superior'

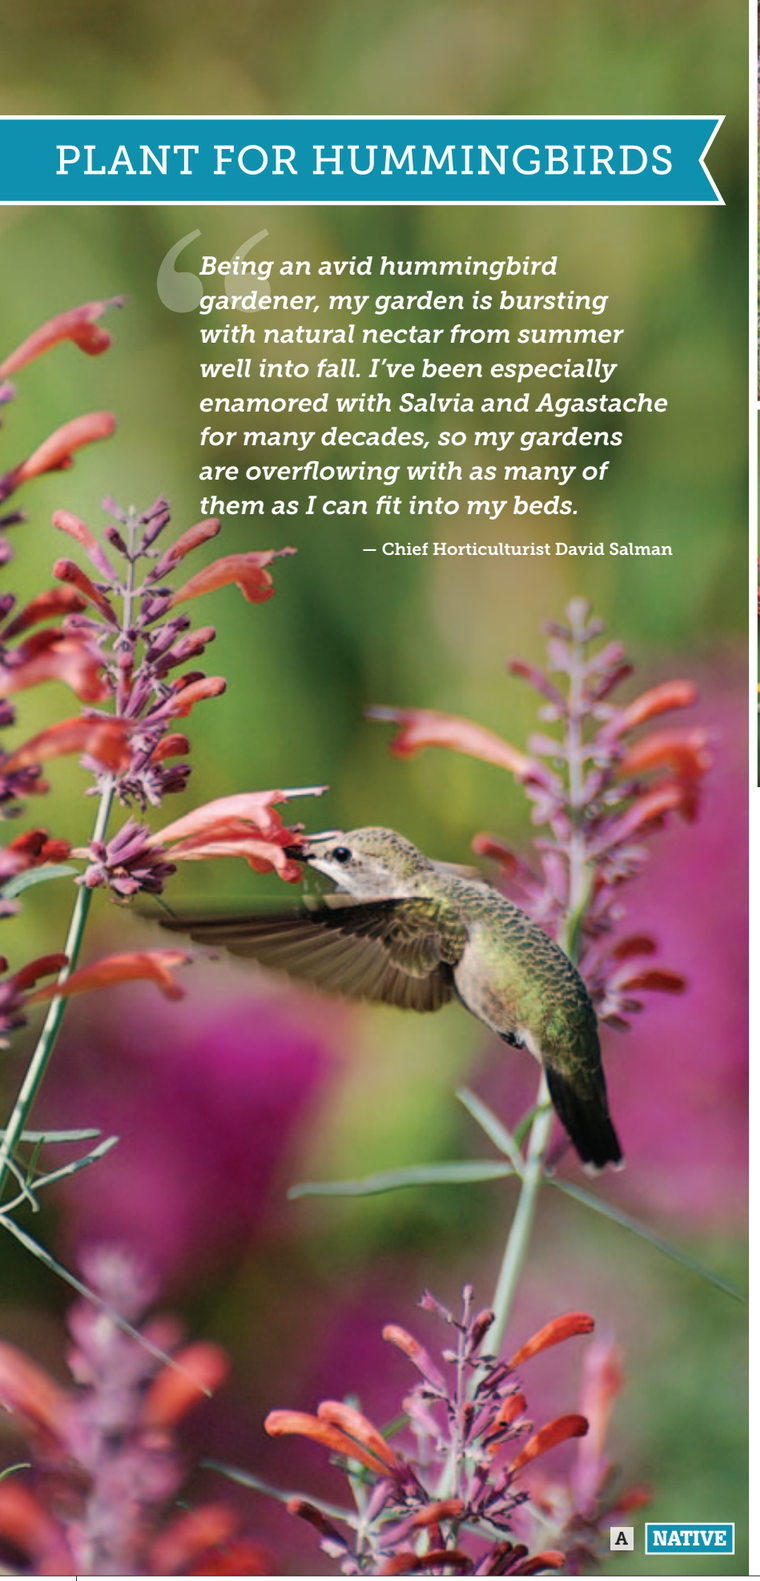

One of the most cold hardy varieties of Lavender. Sweetly fragrant and uniformly compact with dark purple bee-friendly flowers in late spring. #HC014614 **Also available in a Tray of 9**

16" tall x 18" wide | Zones 5-10 | 5" Deep Pot | Well-Drained Soil

PLANT FOR HUMMINGBIRDS

Being an avid hummingbird gardener, my garden is bursting with natural nectar from summer well into fall. I've been especially enamored with Salvia and Agastache for many decades, so my gardens are overflowing with as many of them as I can fit into my beds.

— Chief Horticulturist David Salman

A | Agastache rupestris
Agastache rupestris
One of the most durable Agastache species. With smoky orange flowers held by lavender calyxes, the plant is scented like licorice and mint. *A High Country Gardens Introduction*. #HC013928 **Also available in a Tray of 9**

36-42" tall x 18" wide | Zones 5-9 | 5" Deep Pot
Well-Drained Soil | Plant with Coreopsis, Lavender

B | Furman's Red Texas Salvia
Salvia greggii 'Furman's Red'
Abundant red flowers draw hummingbirds from miles around from early summer through fall. One of the most cold-hardy native Salvias with sweetly aromatic foliage. #HC014704

24-36" tall x 18" wide | Zones 6-10 | 5" Deep Pot
Well-Drained Soil | Plant with Russian Sage, Santolina

C | Lucifer Crocosmia *Lucifer Montbretia*
Funnel-shaped flowers will lure hummingbirds and other pollinators with scarlet-red blooms in summer. With tall arching stems and foliage, plant to add color and interest to borders and container gardens. #HC008679

30-36" tall | Zones 5-9 | Bag of 10 Bulbs
Well-Drained Soil | Plant with Nepeta, Lavender, Yarrow

D | Magnus Echinacea
Echinacea purpurea 'Magnus'
A vigorous cultivar that thrives in most growing conditions. Large flowers feature petals that radiate out from the cone. Leave seed heads standing to feed birds. #HC014542

36-48" tall x 18" wide | Zones 4-9 | 5" Deep Pot
Compost Enriched Garden Loam | Plant with Liatris, Yarrow

E | Coconino County Desert Penstemon
Penstemon pseudospectabilis 'Coconino County'
An incredible bloomer with intense pink flowers offering natural nectar in late spring. It spreads gently, helping to fill in difficult-to-plant areas. #HC017894

30-36" tall x 18" wide | Zones 5-9 | 5" Deep Pot
Well-Drained Soil | Plant with Sedum, Bearded Iris, Yarrow

F | Fire Dance Red Hot Poker
Kniphofia hirsuta 'Fire Dance'
Hailing from the high elevations of South Africa's Drakensberg Mountains, this compact colorful bloomer boasts great cold hardiness. #HC014741

18" tall x 15-18" wide | Zones 5-8 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Lavender, Upright Sedum, Sulphur Buckwheat

NATURAL NECTAR IS BEST

"Natural nectar" refers to the nectar that comes from flowers. In the diet of a hummingbird, comparing the sugar water in hummingbird feeders to natural nectar is like comparing a soda to an organic fruit smoothie. Plant hummingbirds' favorite perennials as a healthy way to fuel their flight.

PLANTING A POLLINATOR PARADISE

By selecting season-long blooms and native grasses, your garden will help provide food and sanctuary for songbirds, pollinators, and beneficial insects. Native grasses and foliage feed caterpillars, and long-blooming flowers supply nectar and pollen for butterflies, bees, and hummingbirds.

A | Select Blue Nepeta
Nepeta faassenii 'Select Blue'

Bees and butterflies love the bountiful bloom in late spring and again in summer. This long-lived, easily grown perennial is a cornerstone in many xeriscapes. #HC014170

15" tall x 18" wide | Zones 4-9 | 5" Deep Pot
Well-Drained Soil | Plant with Fire Poker, Penstemon, Oriental Poppies

B | Pawnee Buttes® Sand Cherry
Prunus besseyi 'P011S'

Hailing from the plains of NW Colorado, it boasts a tough-as-nails constitution in lean soil and extreme weather. Enjoy fragrant late spring flowers and mahogany-red fall foliage. *A 2000 Plant Select® Introduction.* #HC014227

12-18" tall x 4-6' wide | Zones 4-8 | 5" Deep Pot
Well-Drained Soil | Plant with Agave, Littleleaf Mountain Mahogany

C NEW Sensational!™ Lavender
Lavandula x intermedia Sensational!™

A seedling of famously versatile, easy-to-grow Phenomenal Lavender. Thrives in hot, sunny, dry growing conditions with improved tolerance for humidity and damp cold. #HC017864

30" tall x 24" wide | Zones 5-9 | 5" Deep Pot | Sandy Soil, Compost Enriched Garden Loam, Well-Drained Soil | Plant with Salvia, Ornamental Grasses

D | Goldsturm Black Eyed Susan
Rudbeckia fulgida 'Goldsturm'

Reliable, drought-tolerant, and adaptable to clay soil. Long-blooming with irresistible golden flowers that attract butterflies and seed-eating songbirds. A true perennial Rudbeckia. #HC014256 **Also available in a Tray of 18**

18-24" tall x 24" wide | Zones 4-9 | 5" Deep Pot
Most Soil Types Including Clay | Plant with Echinacea, Liatris, Centranthus

E | Blonde Ambition Blue Grama Grass
Bouteloua gracilis 'Blonde Ambition' PP#22,048

Host plant for hairstreak butterflies. Extremely cold-hardy and low-maintenance, with eyelash-like flowers to add texture from summer through winter. *A High Country Gardens & Plant Select® Introduction. 2011 Plant Of The Year.* #HC013976 **Also available in a Trays**

30-36" tall x 30-36" wide | Zones 4-9 | 2.5" Pot
Most Soil Types Including Clay | Plant with Agastache, Penstemon, Echinacea

F NEW Buzz® Hot Raspberry Butterfly Bush
Buddleia davidii 'Hot Raspberry'

This honey-scented shrub is a magnet for pollinators. Blooms from early summer to late fall. Fits in smaller spaces, perennial beds, or large container plantings. #HC017760

36-48" tall x 24-36" wide | Zones 5-9 | 5" Deep Pot
Compost Enriched Garden Loam | Plant with Sunflower, Ornamental Grasses

G | Red Valerian (Centranthus)
Centranthus ruber Coccineus

Everblooming flower clusters supply nectar for butterflies. A tough, durable plant that thrives with minimal water once established and spreads over time. #HC013994

24-36" tall x 30" wide | Zones 4-9 | 5" Deep Pot
Well-Drained Soil | Plant with Yarrow, Ratibida, Goldenrod

CUSTOMER REVIEW | ★★★★★

Red Valerian (Centranthus)

"They do well in pretty much any soil and hard-to-grow-anything-else areas... Bonuses are that they bloom all the time, they are hard to kill, the hummingbirds, butterflies (swallowtails especially), bees, & moths love them... I get many compliments on them."

— Customer in Utah
