Managing Partner, Tax Advisory Lucy Lee was recently featured on "Pivot" where her work was highlighted as an example of how AI enables professionals to "move upstream" into complex, high-value areas like immigration, tax strategy, and estate planning.

When technology streamlines the basics, professionals can deliver more strategic insights at critical moments, with trusted relationships remaining the real differentiator. The future of tax advisory is human expertise, complemented by AI.

At Citrin Cooperman, all 3,500+ employees across the U.S. and India share in our growth through the innovative P-unit equity program. As the firm's value rises, so does each employee's. It's a model built on shared achievement, long-term commitment, and a belief that when the firm thrives, everyone benefits.

At Citrin Cooperman, ownership isn't just for partners — it's for everyone.
