

## Compaq and Microsoft
### 8-Way Technology

# The new 8-Way ProLiant server from Compaq

*Delivering the power to run your enterprise today — with an eye on the future*

*Compaq ProLiant*

*"Customers want reliable and cost-effective systems which can scale-up to meet demanding Web, e-commerce and messaging requirements," said Edmund Muth, Group Product Manager, Microsoft Corporation. "Compaq's 8-way SMP architecture offers the scalability that Windows NT Server 4.0 Enterprise Edition customers want today, and pre-positions customers for further scalability gains with Windows 2000. Compaq and Microsoft remain deeply committed to providing Windows NT solutions for enterprise data center applications, and this announcement is one more proof point."*

**Compaq:**

- Sells more than twice the number of Windows NT servers than any other manufacturer in the world
- ProLiant servers running Windows NT were the first platform to break the $20/tpmC barrier
- Has helped more than three million users migrate to Windows NT over the past four years
- Has more than 26,000 trained and certified Microsoft professionals around the world
- Is Microsoft's chosen Prime Integrator for Windows NT
- Has nearly four million seats of Microsoft Exchange under deployment contract
- Is Microsoft's development platform for Windows 2000
- Is exclusive sponsor of the NT 5.0/Windows 2000 Rapid Deployment Program

**The undisputed Windows NT Server market leader**

**Compaq ProLiant and Windows NT Server — Simply works better!**
