REIMAGINE ANY SPACE WITH RICHELIEU'S CUTTING-EDGE HARDWARE SOLUTIONS AND ACCESSORIES

With a focus on color-forward finishes, textured surfaces, space-saving organizers, durable outdoor-ready materials, ambient lighting, and sleek, functional hardware, Richelieu is pleased to showcase its comprehensive range of specialty hardware and accessories at the 2025 Kitchen & Bath Industry Show.

Richelieu
YOUR HARDWARE CHAMPION

Say goodbye to muted neutrals and cookie-cutter layouts and hello to bold, personalized interior designs that push the boundaries of style and innovation. This year, designers and homeowners are introducing more character into their spaces with earthy and unconventional hues while playing with unique textures and patterns.

They're also prioritizing functional spaces that optimize organization, especially in notoriously cluttered rooms like the kitchen and garage, with the use of sophisticated products that unify and simplify spaces. To create the perfect ambiance, designers are leaning into new lighting technologies to play with illumination and create spaces that are both beautiful and beneficial to their inhabitants' well-being.

Alba

Alba

Ocean

Ocean

To achieve these popular styles, Richelieu, the leader in specialty hardware products, will be on hand at this year's 2025 Kitchen & Bath Industry Show (KBIS) to showcase the brand's most exciting solutions. From high-quality panels with wood grain finishes to clever space-saving storage organizers, visitors will experience some of the brand's most innovative products, including three new decorative hardware collections from **Alba**, **Ocean**, and **Atipica**.

Richelieu
YOUR HARDWARE CHAMPION

Richelieu will also be debuting several trendy new colors at this year's show, including **Decover** for Optimiz-R drawers in Brushed Bronze, Olive Green, and Pink Brass; **Zenith Panels** in the new Cotto and Agave shades, and the **Liberta Modular System's** beautiful new Mill Gold.

Visitors to Richelieu's KBIS booth will be in for a special treat with the brand highlighting five special products this year. These top five products include premium **AGT Wall Molding** with its range of unique colors and textures; the high-end **Alba Hardware Collection** featuring innovative geometrical designs and colors; the unique **R Push** with its innovative assistance arm for smooth door opening; the eco-friendly **Ocean Collection** of decorative knobs and pulls made from recuperated and recycled fishing net polymers; and the advanced **Wave Technology** for interior lights that enables progressive, synchronized switching of all connected lights for fluid lighting transitions that can be controlled with precision.

SURFACE STYLE

Installing premium panels is one of the best ways to infuse personal style and eye-catching interest into a room. This year, Richelieu is showcasing a selection of high-quality panels that offer flexibility, easy installation, and unmatched design. Take, for instance, the ever-popular **collections of Wall moldings**. These premium slatted wall panels add warmth to any room through texture and color, creating a peaceful, welcoming atmosphere. Available in various finishes and sizes, these panels boost creative possibilities, framing features, accentuating architectural details, and even transforming entire rooms.

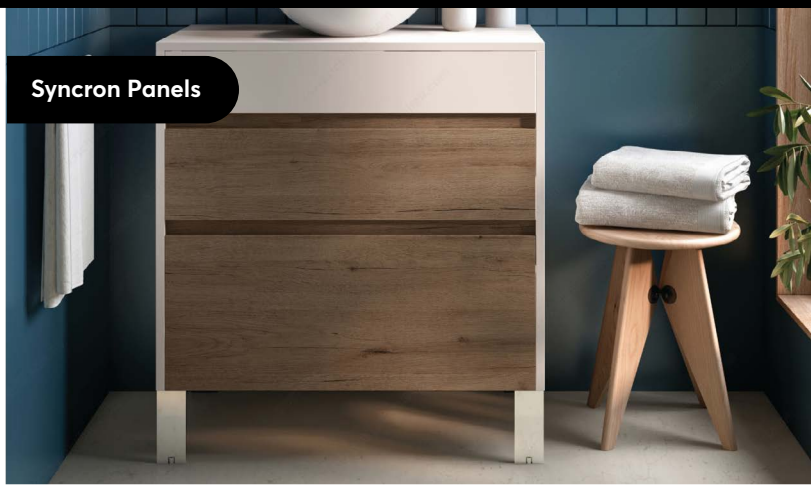

Richelieu will also share its **Brillanté** collection, which is the perfect solution for elevating decorative walls, architectural elements, kitchen cabinetry, closet organizers, home offices, and more to create elegant interiors. These perfectly smooth panels are coated with high-gloss lacquer and dried using UV technology, resulting in a gloss level of over 90%, which exceeds current industry standards.

Whether they're installed in the kitchen, bathroom, closet, or another space, **Syncron's** modern door panels and custom-made cabinet doors allow you to transform the look and feel of any room. Designed to simulate the natural look and feel of wood grain while maintaining a high visual impact, these textured panels are offered in a wide selection of wood grain finishes and attractive colors for both sides of the panel.

Also on display at KBIS is the **Finsa** collection of panels, edgebanding, laminates, and custom doors. This line offers a wide variety of panel designs in wood grain finishes, linen patterns, and soft neutral colors (available on both sides of the panel). With its certified antibacterial finishes, the entire Finsa Collection is suitable for applications where hygiene is a must, including kitchens, bathrooms, and commercial settings.

PREMIUM PANELS FOR ANY SPACE

SURFACE STYLE

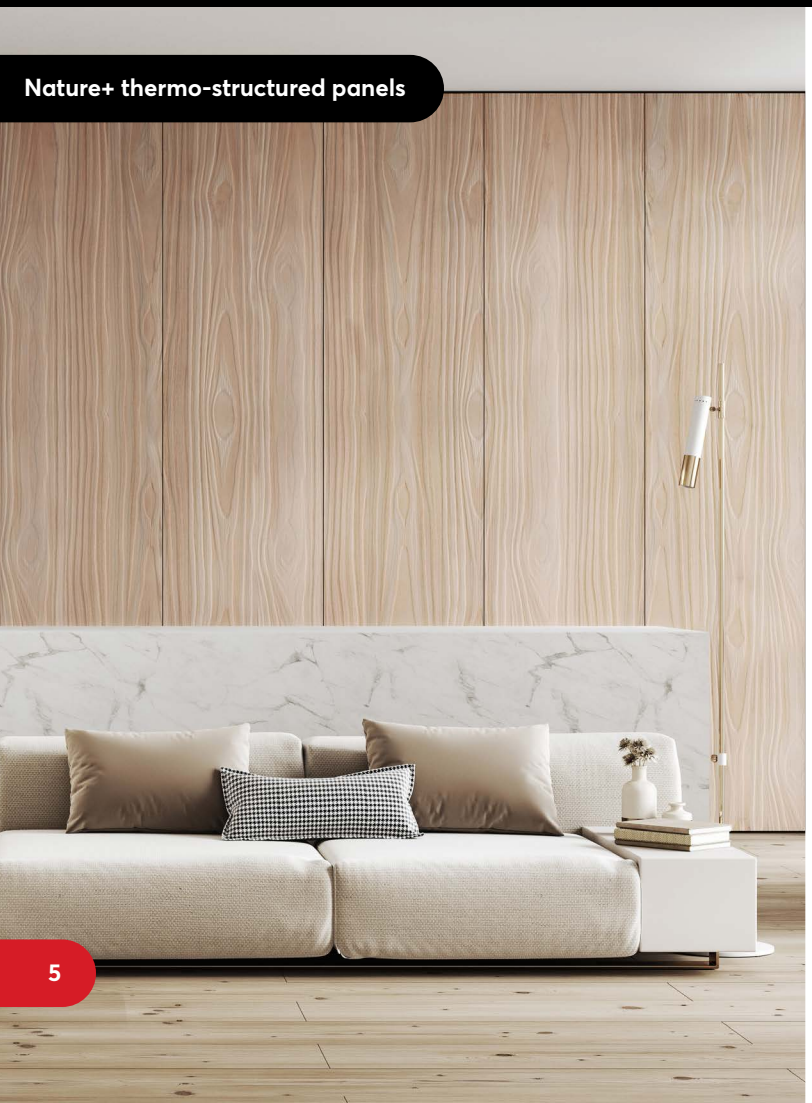

Finally, Richelieu will also share its **Nature+ by Cleaf** thermo-structured panels, which are engineered in Italy and replicate both the look and feel of natural decorative finishes. With a wide range of tones, textures, patterns, and functionalities, there are endless opportunities to create a stunning custom interior space with these practical and stylish panels.

As designers look for ways to add warmth and personality to interiors in 2025, Richelieu will be on hand at KBIS with an array of unique **decorative wall panels**. These include the modern **FormArt** collection of sculpted decorative panels, which are carved with sequential patterns for a continuous design. These MDF panels come in a variety of different motifs and provide effortless visual interest to any room.

Richelieu will also showcase its robust, multifunctional **LineArt** panels at KBIS this year. With an extensive selection of laminates, wood veneers, and metal veneers, as well as different widths for the grooves and slats, to choose from, designers can create a high-quality decorative panel that is all their own.

The exhibit at KBIS wouldn't be complete without the flexible decorative wood panels by **Tambour**. Available in wood veneer or solid wood, these panels feature unique grooving that creates curves and angles that are ideal for wall coverings, decoration, furniture, ceilings, and vertical applications.

FINESSE AND FUNCTION: HARDWARE TO SIMPLIFY ANY PROJECT

GERMAN ENGINEERING, MADE IN ITALY

This year, minimalist and functional aesthetics continue to dominate hardware trends with designers and homeowners looking for innovative products to update their living areas and add more convenience. At this year's KBIS, Richelieu is sharing two new products that embrace the concept of discreet and precise design.

LIDO OPENING ARM SYSTEM

The **Lido opening arm system** is a versatile solution that perfectly combines strength and beauty. A masterpiece of Italian design and German engineering, the Lido opening arm is not only functional and durable but also stylish and graceful, adding a touch of sophistication to any space where it is installed. Available for downward and upward purposes, this easy-to-install opening system is designed to adapt to doors of any weight or dimension.

Lido

Melo

MELO FLAP HINGE

Another Italian product on exhibit at this year's KBIS is Richelieu's **Melo Flap Hinge**. With its distinctive trapezoidal shape, this sleek flap hinge can open and close lift-up and drop-down doors while enhancing the look of the cabinet. A unique little piece of art, Richelieu's Melo flap hinge is a manifestation of sleek design and Italian know-how.

OPEN STORAGE SOLUTIONS FOR MODERN SPACES

Liberta

Gone are the days of hidden cabinets, drawers, and shelving to hide belongings; instead, designers are creating airy, transitional spaces between rooms using convenient open-space storage products in 2025.

At this year's KBIS, Richelieu is exhibiting its versatile **Liberta Modular System**, which offers endless storage possibilities thanks to its interchangeable configurations. With easy-to-assemble connectors and profiles, designers can easily install this open-shelving concept to expand any space. Richelieu will also be launching a new color in 2025 – Satin Brass. This warm and elegant hue is the latest addition to Libera's collection of sleek finishes, which include black anthracite, matte black, and satin aluminum.

ENHANCED EFFICIENCY

IT'S NEW!

COME VISIT BOOTH #2827

A well-organized kitchen that allows for easy movement, optimized storage, and effortless efficiency will always be in style. This year, Richelieu is showcasing several of its latest innovations in kitchen storage and accessories to transform this bustling hub of activity into a functional and beautiful space. New this year, the brand will display its collection of kitchen solutions and accessories that are available in the trendy and modern anthracite grey color.

This includes Richelieu's convenient **Liro** kitchen accessories collection, which will be displayed at KBIS this year. This complete range of interior cabinet organization is available in anthracite grey and features thin walls for enhanced design and better space optimization as well as customizable options, including wood inserts that can be added to the metal shelves to harmonize the look of the interior cabinet with the door colors.

Along with the Liro cabinetry range, Richelieu will display its sleek **Cuiso Black and Gold Cutlery Tray Sets**. This helpful system offers versatile and modular organization for cutlery and utensils for various drawer types and sizes and is now available in a trendy and modern black and gold finish. With an easy-to-clean surface and elegant, clean black finish complemented with gold profiles made of aluminum, this set is as beautiful as it is useful.

One product that is sure to create a lot of buzz at this year's KBIS is the new **Sous-Chef Sliding Frame**. This innovative solution allows for a perfectly organized kitchen while freeing up countertop space needed during meal preparation by using the same baskets on the pull-out system frame as on the backsplash rail. With the Sous-Chef, everyday ingredients and accessories are within easy reach in an instant.

Finally, to ensure a clean and tidy kitchen, Richelieu's **Tandem Bottom Mount Waste Bin** in modern black is the perfect addition to any home. This practical built-in waste separator for kitchen cabinets is designed to maximize the use of cabinet space, especially in under-the-sink cabinets. Made from recycled plastic, this waste bin features integrated full-extension rails, which allow it to be pulled out completely, thus revealing the insertion opening for the inner bins. With a plastic system lid to cover the inner bins when they're pushed back into the cabinet, this system is both hygienic and discreet.

DECOVER FOR OPTIMIZ-R

Made from specially anodized aluminum for a premium appearance and tactile quality, this innovative product can enhance the look of any new and existing Optimiz-R drawers and takes only seconds to install.

CLEVER KITCHEN SOLUTIONS FOR EVERY NEED

TRANSITIONAL CONVENIENCE

Trendy kitchen designs aren't just for the indoors, either. In 2025, more people will be looking to extend their living space with transitional outdoor kitchens built with quality materials that can withstand the elements. At this year's edition of KBIS, Richelieu will be ready with durable hardware solutions that go beyond traditional interior spaces.

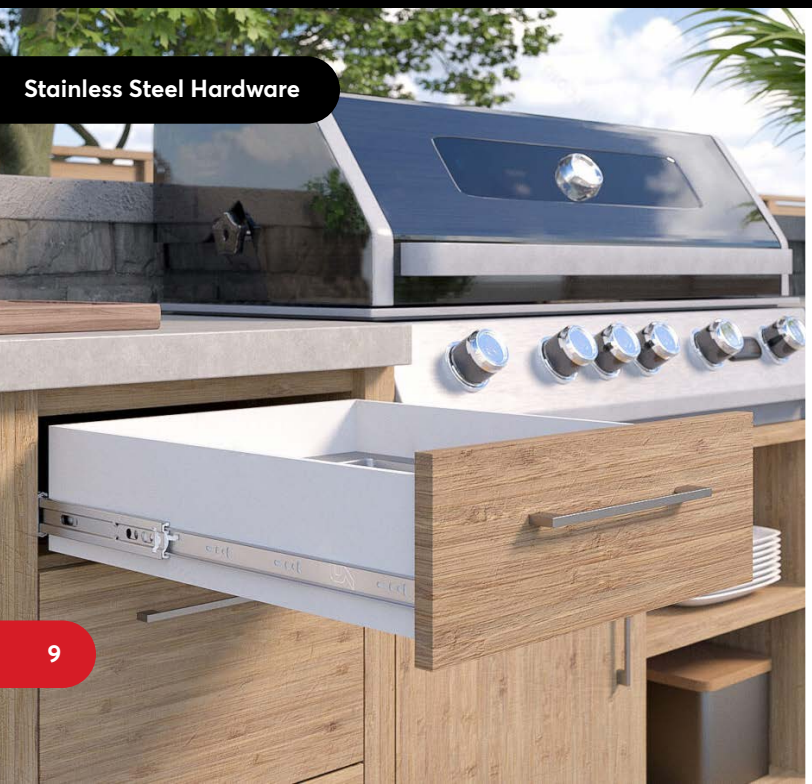

To build a quality outdoor kitchen that will last, Richelieu's **Weatherproof Polymer Panels** offer marine-grade toughness in customizable designer styles. These state-of-the-art CNC panels are resistant to humidity and moisture and the high-density polyethylene will not rust, delaminate, or rot. As a bonus, these exterior door panels never require painting or refinishing.

No outdoor kitchen would be complete without Richelieu's **Stainless Steel Hardware** solutions, which feature 304-grade stainless steel – the best corrosion-resistant metal for outdoor applications. This collection includes stainless steel ball-bearing slides, RCS hinges, and screws that maintain their structural integrity and visual appeal despite exposure to elements, such as rain, snow, heat, and humidity. This collection of rust-resistant, stainless-steel products is also resistant to stains and scratches making it ideal for surfaces subject to intensive use, such as an outdoor kitchen.

Richelieu is also proud to display its popular **Impreza** collection of outdoor-ready surfaces at KBIS this year. These innovative surfaces feature reticulated polymer technology, creating a waterproof shield that protects exterior furnishings from daily weather variations and extreme weather conditions. Combining uncompromising durability with sleek, modern design, these hygienic worktops are engineered to resist impact, scratches, stains, and moisture and are specifically engineered to outperform comparable products.

Finally, building the perfect outdoor kitchen requires the right lighting. For a modern, adaptable option, homeowners should consider Richelieu's **NeonFlex 3D**. This ultra-flexible sheath for an LED ribbon can bend along curved surfaces to follow the contours of objects and elements in any design. Its uniform linear illumination without any glare or pixelation creates a captivating light accent in any outdoor setting.

FUNCTIONAL UPGRADES FOR NEAT SPACES

Slatwall

Garages are no longer just a drab, utilitarian space to house vehicles, tools, and sporting equipment. These days, modern homeowners are looking for ways to elevate this part of the home with functional and stylish upgrades that reflect their personal tastes. That's why, for the first time, Richelieu will have a whole section of its booth at KBIS dedicated to products to upgrade and transform the garage.

BEYOND STORAGE

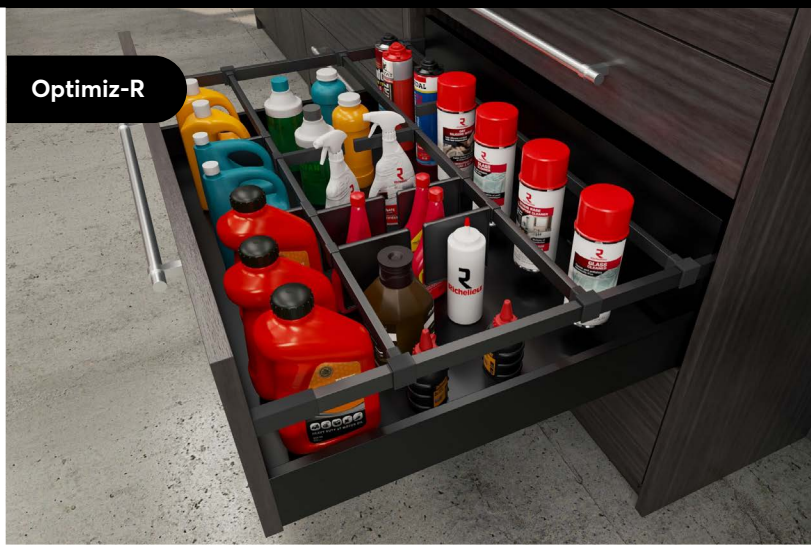

This includes the versatile **Slatwall** garage organization system, which features customizable panels, accessories, storage kits, and hooks and hangers to transform any space. From panels to wire baskets to bike racks, Slatwall storage solutions offer a complete range of products to reorganize the garage in an aesthetically pleasing way.

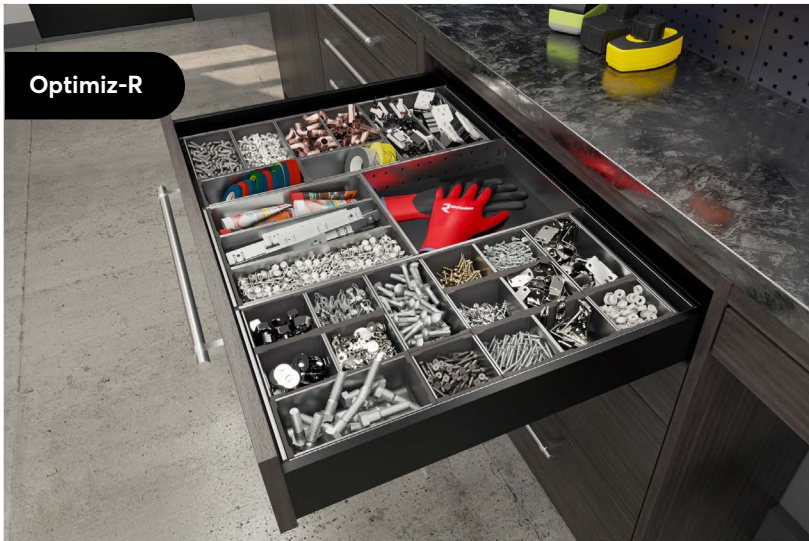

Anyone looking to save space with free-floating shelves, counters, and other surfaces in the garage will also be happy to see the **Kolossus** bracket system on display at KBIS this year. This system of sturdy shelving brackets and fixtures allows designers to maximize floor space and create more storage opportunities in the garage. Concealed or visible, these shelving brackets offer the ideal solution for those tricky garage storage challenges.

To ensure tools and other items in the garage are accessible in a tidy, hassle-free way, Richelieu is previewing its incredibly popular **Optimiz-R** metal drawer storage solution at this year's KBIS event. Particularly helpful for use in other busy areas of the home such as the kitchen, closets, and bedrooms, this metal drawer system features advanced soft-close technology, synchronized movement, and full-extension opening for effortless access to the drawer's contents.

AMBIENT LIGHTING FOR EVERY MOOD

Wave technology

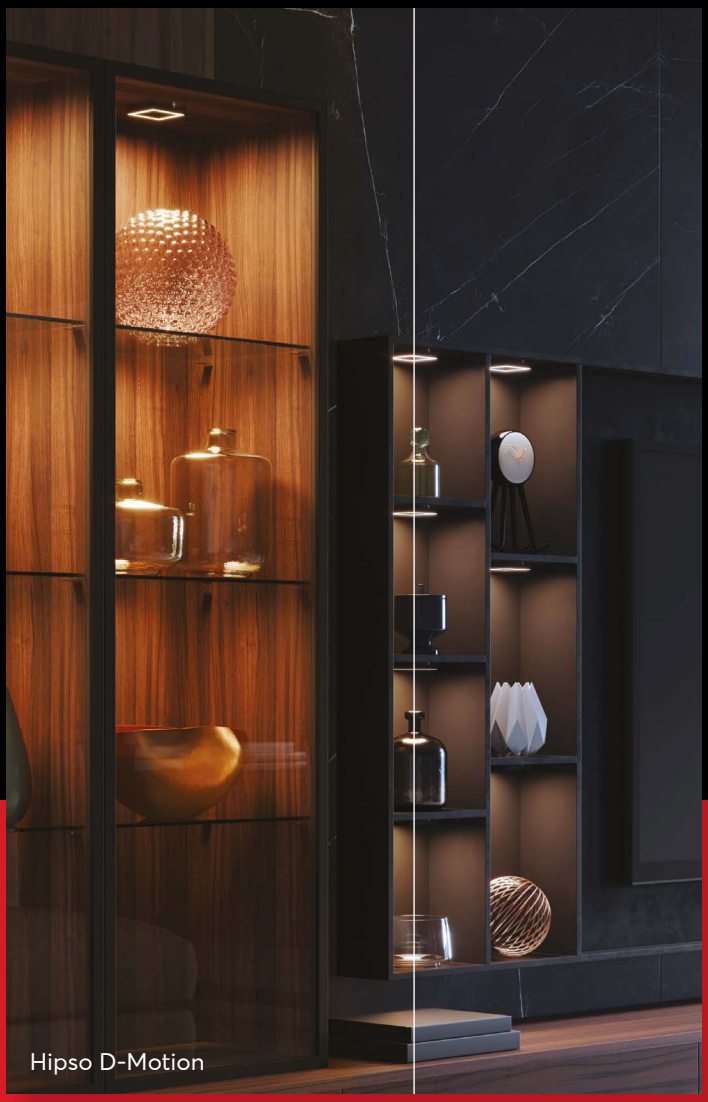

In 2025, lighting is about so much more than mere functionality. This year, designers are using new technologies to play with illumination and create spaces that are beautiful and beneficial to their inhabitants' well-being. At KBIS, Richelieu will be ready to help visitors achieve this aesthetic with its large selection of premium lighting designs and lights for every purpose.

Inspired by automotive sector trends, **Wave technology** for interior lights enables progressive, synchronized switching of all connected lights, creating fluid lighting transitions that can be controlled with precision. This advanced system is perfect for those wishing to explore new possibilities in lighting design with its innovative color temperature control and ability to turn off lights in reverse order. Ideal for high-end residential, commercial, and hospitality spaces, this system delivers unmatched creative freedom for shaping moods, highlighting architectural features, and creating immersive experiences.

CUTTING-EDGE TECHNOLOGY WITH ELEGANT DESIGN

Hipso D-Motion

Atom D-Motion

Flexyled AT6 D-Motion

Another popular option is the **D-Motion** LED lighting system, which can light up even the most unconventional areas of the home. This unique system allows users to change color temperature, switching from super warm white to neutral white with a single click. With only two wires, it's also more flexible than three-wire systems and easier to install.

HOLL UNDER-CABINET PUCK LIGHT

Speaking of minimalism, Richelieu's **Holl** under-cabinet puck light is a great option for those looking to create a charming lighting effect from a discreet but powerful perimeter light form. Offering excellent freedom of composition, the halo-shaped Holl lights can be either surface-mounted or recessed.

Holl

Hiddi

HIDDI DRAWER LED

Lastly, Richelieu is excited to display the elegant **Hiddi drawer LED** at KBIS this year. This symmetrical light projection luminaire is a stylish way to seamlessly illuminate a drawer or pull-out basket's contents. It can be used in cabinets with drawers or vertical opening systems and features an infrared sensor that automatically switches it on and off when the door or drawer is opened and closed. Compact and versatile, Hiddi demonstrates how subtle lighting upgrades can make all the difference when it comes to enhancing the overall ambiance of a room.

Richelieu is proud to offer kitchen and bath designers, dealers, architects, and remodelers a comprehensive and on-trend selection of solutions for every project.

Visit **richelieu.com** to see all these solutions and **visit Booth #N2827** to discuss these products further in detail with Richelieu's experts and representatives at **KBIS 2025**.
